### About Me

---

I am a passionate and creative game designer with a keen eye for crafting engaging video games. My expertise lies in game design principles, and I possess a comprehensive understanding of various game genres. Throughout my professional journey, I have successfully implemented diverse gameplay mechanics for multiple projects. I have a strong belief in continuous learning, which keeps me motivated to stay on top of the latest trends and expand my skill set.

### Work History

---

#### Khosouf Studio | Game Designer

*February 2023 - March 2026*

- Worked on their next releases, 'Glitchcore' and 'Shadow Dreams' where I have mostly designed and set dressed the levels, while constantly doing other various duties such as programming basic functions with blueprints, designing weapons and mechanics, animating with a control rig, lighting, audio work, and optimizing/bug-fixing.
- Shipped 'Box To The Beat' on the Playstation VR2 where I designed, mapped out, and play-tested half of the levels.
- Represented the company at numerous events.
- Created and maintained various documents
- Other minor duties such as writing dialogue, creating pitch decks, and doing market research.
- Worked on, and released many white labeled projects. One of which was made for Abu Dhabi Department of Culture and Tourism where they showcased it at various events

### Education

---

#### Bachelor of Game Development (Game Design)

SAE Institute - Dubai, UAE | *September 2020 - September 2023*

### Additional information

---

- Avid gamer with a deep understanding of current trends across mobile, console, and PC platforms, including AAA games as well as emerging genres like narrative-driven indie games and online multiplayer titles.
- Enthusiastic about acquiring knowledge in emerging technologies, such as VR/AR and procedural content generation, to push the boundaries of interactive experiences.
- Proficient in providing constructive feedback related to game design elements, while offering ways to improve them.
