

WALL BOX & LIFT PANEL

WALL BOX

LIFT PANEL

MADE TO MEASURE

- ✓ Manufactured to customer dimensions
- ✓ Any width, any height
- ✓ Any depth subject to practical width and height dimensions
- ✓ Non std shapes e.g round, rhomboid

EASY TO USE

- ✓ Delivered to site ready to install
- ✓ Can be used for horizontal ring beam penetrations
- ✓ Labelled with drawing reference
- ✓ Protects edges from break out damage

OFF-SITE MANUFACTURE

- ✓ Manufactured and assembled in a factory environment
- ✓ Wall boxes have structural ply at each end and for the central supports
- ✓ Lift panels have compressible foam infill

EASY BREAKING OUT

- ✓ Ply ends have holes which allow crow bar insertion to assist with removal to the inside of the wall
- ✓ Remove foam & stopper from lift panel
- ✓ Saves PM and labour time on site
