## **Quality**

### **What this policy covers**

This policy sets out the Company's commitment towards the quality of its products being produced and the services provided.

### **Objectives**

The Company has put into place processes and procedures to assist towards the high standard of quality expected.

- Employees are trained to understand the standard expected from them.
- Identifying the needs of customers.
- Different employees check the quality from those who manufactured, with a staged process of manufacturing checks can be quite often.
- Photographic evidence is taken in order to prove quality of products before shipment.
- Monitor customer feedback on quality of products.
- Quality checks of delivered materials from suppliers.
- Continuously monitoring and improving quality checks where necessary.
