Licensed Technology

Licensing Fee

A.C.N. 662 740 516 Pty Limited

Australian based **Intellectual Capital Special Purpose Company** (“ICSPC”) that is ring fenced from operational activities and positioned to license intellectual capital as an “export product” into various International Markets (*including via Joint Ventures*)

All commercial & research development contracts relating to Intellectual Property development with Universities, Researchers, Laboratories and other commercial service providers are executed under this ICSPC

All agreements include detailed, clear provisions in relation to intellectual property ownership of innovation that is developed

Licensed Technology, Joint Ventures, Satellite Companies

Ambition of exporting commercially attractive IP to key large scale priority Northern Hemisphere & Asian markets

Exploration of market entry (including via local joint ventures) in 2 priority countries commenced late October 2022
