

We can't believe it's the summer holidays already, the children are off school and the dogs are loving all the extra cuddles.

We're enjoying having Ruby with us full time before she starts studying science. A lot of you will know her dream is to one day become a veterinarian. She's been completing a dog grooming course and enjoying her new customers. We're all very proud of her.

Maria completed level 3 canine hydrotherapy so we now have our very own hydrotherapist, we do have future plans as we register with the National Association of Registered Canine Hydrotherapists.

Thank you to Gary and his team for completing the tarmac in the meet and greet areas. We've also added a new astro area with lots of play equipment in preparation for the winter months.

To top this off we've been chosen as a finalist for The small business awards 2025, please vote for us.

The Small Business Awards Finalist
2025

New astro area with a little house, soft play and another ball pit

One of Ruby's grooms, before and after. Doesn't Britni look beautiful.

How lovely is our latest reviews

Holly Brentnall-Daycare

My doggies have the best time! Such an amazing place would 100% recommend x

Wendy Young-Doggy swim session

Came with harry for the first time. Fantastic facilities and clean and well designed, I've been 2 others that were awful and I felt grimy getting into. Reservoir doggy spa was warmer than a health spa I went to last week. The toys and the raft were so good to use. The raft was great to use towards the end of our session to calm harry down as he was so excited.

The shower facilities were amazing and well thought out it made the whole experience of trying shower a dog and self so much more stress free.

I can't wait to come again with him.

The photo below is of Ben and Mollie having fun in the doggy arcades ball pit.
