

# Consent for Dogs sharing a suite

## **Our policy for dogs sharing a kennel at Reservoir Doggy Resort & Spa:**

Only dogs from the same household can share a suite and they will be monitored. The owner must give written authorisation to do this and consent must include authority to separate the dogs if there are problems.

If your dogs board together you accept full responsibility if one of your dogs attacks or harms your other dog in any way.

I authorise and consent for my dogs to board together and I accept full liability and responsibility for any outcome or situation that may occur.

i also authorise if a situation does occur then I consent to Reservoir Doggy Resort & Spa to separate them.

Reservoir Doggy Resort & Spa will do their best to house them both separately but at high peaks the suites can get fully booked. I understand that Reservoir Doggy Resort & Spa will contact myself and arrange for my emergency contact to collect one of the dogs.
