“Mane Results Salon install class was super informative and fun! The cost was definitely lower than I expected and worth so much more! I’d definitely encourage anyone to take it. Getting to do a coaching class after to ask any questions was the cherry on the top! Very please with my decision to take the step to adding to my education.”

I enrolled in Mane Results' extension course to learn step by step installation instructions so that I might provide a sophisticated protective style option for my clients.

I know the brand prides itself on healthy hair; so it was a no brainer to be educated with a company that supports hair health first.

Nekesha is very thorough, precise, and professional. When you are serious about pursuing high-level education, enroll with Mane Results!

“If I could leave a million stars I would. Nekesha is very professional, talented, highly educated, has amazing passion, and is such an amazing educator. My friend and I did a one on one with her to go over different types of curls, product knowledge, and styling for textured hair to achieve a smooth sleek look for bridal and also working with natural curls so our clients have the option to wear their beautiful curls/waves on their wedding day or everyday occasion. This is the best investment I’ve made into my business and I feel so much more confident in all types of curls and confidently styling. I look forward to many more classes with her.”

“I really just want to thank you from the bottom of my heart for the mentor call today. I’ve taken classes and done mentorship programs before and yours was different because you were so authentic. I felt like I was talking to someone I’ve been knowing forever. You made me feel powerful and confident in myself and my business. I’ve never had so many Aha moments in one conversation. Thank you for being honest and open to sharing your keys to success not just in business but in life. “
