dessans the dras Teach By Elliot Eisner

- The arts teach children to make **GOOD JUDGMENTS** about qualitative relationships.

 Unlike much of the curriculum in which correct answers and rules prevail, in the arts, it is judgment rather than rules that prevail.
- The arts teach children that problems can have **MORE** than **ONE** solution and that questions can have more than one answer.
- The arts celebrate multiple **PERSPECTIVES**. One of their large lessons is that there are many ways to **SEE** and **INTERPRET** the world.
- The arts teach children that in complex forms of problem solving purposes are seldom fixed, but change with circumstance and opportunity.

 Learning in the arts requires the **ABILITY** and a **WILLINGNESS** to surrender to the unanticipated possibilities of the work as it unfolds.
- The arts make **VIVID** the fact that neither words in their literal form nor numbers exhaust what we can **KNOW**. The limits of our language do not define the limits of our **COGNITION**.

- The arts teach students that **SMALL DIFFERENCES** can have **LARGE EFFECTS**.

 The arts traffic in subtleties.
- The arts teach students to think through and within a material. All art forms employ some means through which **IMAGES** become **REAL**.
- The arts help **CHILDREN LEARN** to say what cannot be said. When children are invited to disclose what a work of art helps them **FEEL**, they must reach into their **POETIC CAPACITIES** to find the words that will do the job.
- The **ARTS ENABLE** us to have **EXPERIENCE** we can have from no other source and through such experience to **DISCOVER** the range and variety of what we are capable of **FEELING**.
- The arts' position in the school curriculum symbolizes to the young what adults **BELIEVE** is **IMPORTANT**.
