

🌱 100% NATURAL & VEGAN

Azafran Vegalin™

AZACRO8844

The ultimate plant-based alternative to lanolin oil. Unmatched sensorial characteristics, superior moisture control, and fully sustainable.

PRODUCT OVERVIEW

Nature's Answer to Lanolin

Azafran Vegalin™ AZACRO8844 is a natural and vegan alternative to animal-derived lanolin oil. It has a similar appearance to lanolin oil, and its sensorial characteristics—including spreadability, shine, thickness, and stickiness—are equivalent.

Similar to lanolin oil, AZACRO8844 acts as an emollient in cosmetic formulations, supporting skin moisture control. It helps regulate the skin's hydrolipidic film, restoring softness and improving elasticity.

"Restoring softness and improving elasticity."

Moisture Control

Regulates hydrolipidic film

High Gloss

Superior shine & spreadability

ETHICAL INNOVATION

Azafran Vegalin™ vs. Animal Lanolin

Performance Match

PLANT-BASED EFFICIENCY

- ✓ Same emollient strength
- ✓ Restores skin softness and elasticity
- ✓ Suitable for skin, sun, lip, hair and cleansing oil formulations
- ✓ Safe for colour-treated and sun-exposed hair
- ✓ Free from animal ingredients, contaminants & mineral oil
- ✓ Ideal for clean beauty, vegan and sustainable formulations

✓ Cruelty Free & Vegan Certified

Azafran Vegalin™ (AZACRO8844) is a 100% natural, vegan and cruelty-free alternative to animal-derived lanolin oil. It delivers equivalent sensorial performance—including moisture retention, spreadability, and shine—without the ethical concerns or allergen risks associated with sheep wool lanolin.

Why Switch?

"Switch to Vegalin™ for lanolin-like performance with plant-based purity."

Product Characteristics

- ✓ Yellow to amber viscous liquid
- ✓ Natural and vegan alternative to animal-derived lanolin oil
- ✓ High gloss
- ✓ Suitable for bath and shower oils, lip gloss, hair oils, and make-up cleansing oils
- ✓ Provides shine and gloss
- ✓ Can replace mineral oil in formulations
- ✓ Suitable for skincare and suncare
- ✓ Offers emollient benefits
- ✓ Useful in formulations for dry and chapped skin

Typical Applications

AZACRO8844 is versatile and stable, making it an ideal replacement for mineral oils and animal-derived ingredients in a wide range of premium cosmetic formulations.

- Make-up cleansing oils
- Bath and shower oils
- Lip gloss
- Hair oils and serums
- Skincare and suncare applications

Hair Care

Maintains moisture in shampoos & conditioners. Protects color-treated hair.

Body Care

Excellent for bath, shower, and massage oils.

Cleansing

High performance in make-up cleansing oils.

Suncare

Ideal properties for sun protection formulations.
