With uses in apparels, footwear and garments, These are designed to meet the highest industry standards

With over 31 years of experience, we provide the quality you can count on.

Reflective Webbing

Integrate Fashion along with Safety and enhance your product with these reflective webbings.

Get them customized according to your requirements with any size of reflective and any type of webbing.

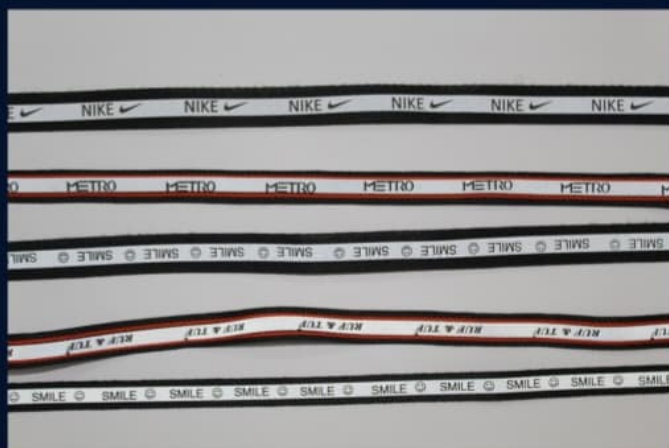

With common uses in footwear and garments, we provide unmatched quality and custom solutions

Reflective With Laser Branding

Enhance your branding with custom solutions on reflective material through Laser Printing

Get your brand's logo and font printed on these webbings to give your product a new and fresh look.

Printed Webbing

Animal Patterns, Floral Prints, Gradients, Tell us your requirements and we can make it happen.

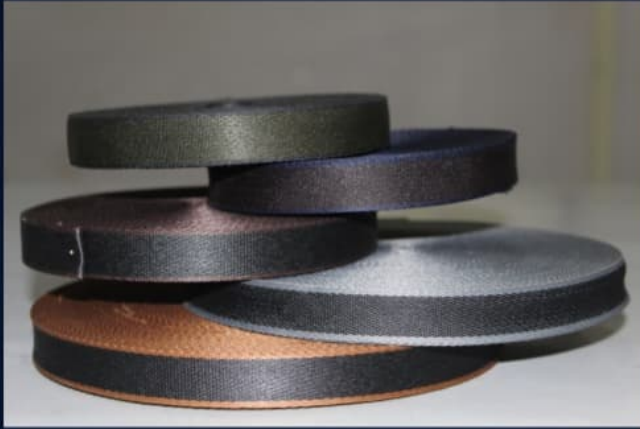

With common applications in footwear, apparels and bags, We can provide versatility like none other.

Enhance your brands by getting customized branding in any design, font or colour that you require.

Waxed Webbing

With an additional process, get a smooth and shinier surface finish to enhance the look and feel of your webbing.

Rainbow Reflective Webbing

Reflectors, But rainbow. Enhance your products by giving them this attractive rainbow colour with common uses in footwear, apparels and so much more.

Customize Your waxed and rainbow webbings with any particular size of reflector and webbing that you require

Spectrum Webbing

These are not reflective, They will shine in this rainbow pattern as they are, giving your product an elegant and fresh feel.

Glitter Webbing

These glitter webbings are something new developed by us fairly recently. Something different that would make your product stand out from the rest..

Everything That you see here is customizable, Every colour, size, pattern would be made according to your requirements

Binding/Piping Webbing

Soft and stretchable binding tapes to make sure that no creases are left while piping. Stretchability can also be adjusted according to your requirement.

Denim Webbing

Denim webbings with a mixed colour to cater to your requirements which can be matched as per your garment or footwear colour.

Customizability is at the heart of what we do, Our clients would get the optimal material of the highest quality required.

Printed Laces

Animal patterns, Floral Patterns, get anything printed on your laces and enhance the attractiveness of your product by a long shot.

Gradient designs give a fresh feel to your product while being colourful and pretty.

Lycra Laces

Stretchable Lycra laces provide the ease and comfort required for your product, Fully customizable and quite fashionable.

Multicoloured lycra laces bring a new concept to the table, customize the colour choices according to yourself as well.

Flat Laces

Flat laces provide the ease of working and the minimalist look to your product. Available in different weavings as well

Circular Laces

Circular laces with different sizes and different colours, light and comfortable laces that integrate fashion and comfort

Feather Laces

Laces with filaments that feel like soft feathers give out a beautiful new concept in shoelaces. Can also be customized in Lycra material.

Wool Laces

Wool laces with smaller filaments than feather laces, but equally as pretty, get a feel of both and choose according to yourself.
