Teacher Observations

Please describe **in your own words** what concerns you have regarding this student. Please give specific examples.
Please email to child.testing@gmail.com

Example: "Miguel is a bright student with a great vocabulary. He is well liked by the class and has no problems making friends. However, he is having a hard time completing his school work and finishing tests on time. He is easily distracted by exterior stimuli. Getting him to focus on a particular task is very challenging. I frequently have to redirect him to the task at hand. Miguel gets bored and uninterested very quickly. I have tried using rewards systems with little or no success. His grades are very inconsistent and fluctuate from C, D and F (he did not pass the last 2 Math tests). My mayor concern is that he will not pass upcoming standardized tests this year. I feel his lack of focus is a major obstacle for Miguel to succeed in school."
