

BE WHO YOU ARE. LOVE WHO YOU LOVE.

When people are born doctors assign them a gender identity. People are assigned as male (a boy) if they have a penis or assigned female (a girl) if they have a vagina.

**I AM WHO
“ I AM ”.**

NOT WHO YOU THINK I AM.
NOT WHO YOU WANT ME TO BE.

I AM ME.

Sometimes the gender a person is assigned at birth is incorrect. Just because someone was born with or has a penis or a vagina does not always mean that they are a boy or a girl. The gender that a person feels that they are is their correct gender.

A person born with a penis may feel and know they are a girl, a person born with a vagina may feel and know they are a boy, or a person born with either a penis or vagina may feel like they identify with both or neither gender.

Transgender is when someone feels and knows that they are a different gender than what they were assigned at birth and Non- Binary is when someone feels like both or neither gender.

Who people are attracted to or love has nothing to do with what gender they are.

A person that is attracted to both genders may be Bisexual, a person who is attracted to the same gender they are may be Gay or Lesbian (if they are female), a person attracted to the opposite gender may be Heterosexual, and a person who is attracted to any gender may be Pansexual.

People have a right to be who they are and love whoever they want. Be who you are. Love who you love!
