

WHY DO I HAVE PRIVILEGE?

Having white privilege does not mean I do not earn things or that my life is always easy.

Having white privilege means that I have many benefits just because I have white skin.

I may not realize I have these benefits because I have always had them.

Black people realize the benefits I have, because they see people with white skin like me everywhere get benefits they do not have.

I can turn my television to any channel at anytime and see people that look like me.

Black people have to turn to certain channels or certain tv shows to see people that look like them.

I can enjoy a walk or jog in my neighborhood and don't have to worry that people will think I am a criminal.

IF Black people walk or jog in my neighborhood, they have to worry that people may think they are criminals.

I can shop at any store to buy things for my hair and skin.

Black people have to shop at special stores to find things for their hair and skin.

The Police will try to help and protect people who have white skin like me.

The Police are more likely to harass and harm black people.

It is not my fault that I have these benefits but they are my responsibility.

Being responsible means I must use my benefits to help Black people to be treated fairly, so we all can have the same benefits in the future.
