

**WHY ARE PEOPLE  
PROTESTING ?**

There are some people in the world that don't like people or treat them bad just because they have black skin like you.

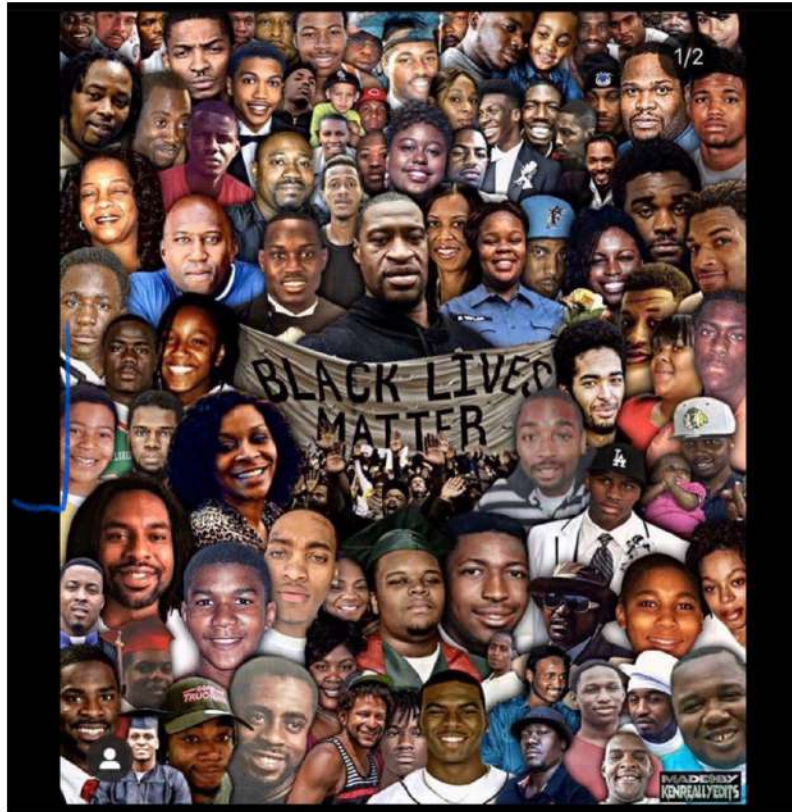

When someone doesn't like a person because they have black skin or a skin color that is different from their own, they are called a racist.

*Sometimes racists have important jobs like police officers.*

You may have heard or seen on tv that a police officer with white skin killed a man with black skin named George Floyd.

People are protesting about this because it has happened before and they do not want it to happen again.

People want to make sure racists can not be police officers anymore, so black people do not get hurt anymore.

Not every police officer is a racist but until racists are not allowed to be police officers you may see more protests.

Do not be afraid of police officers because you have black skin but be safe.

Be proud that you have black skin, because black skin is beautiful!
