REMINDERS

- Always do a **GER** in Therap, even if you're unsure if the incident requires one. Too much documentation is better than too little documentation.
- Please request **ALL documentation** at doctor's appointments to include the signed doctor's note, a visit summary, copy of prescription and physician's order if a new medication was prescribed.
- Double check that prescribed medications are the same on the doctor's note, prescriptions, and MAR before giving the medication.
- Please remember to **check your mailbox** every time you come in to the office. There could be documentation needing signature, competencies, performance evaluations, or quarterlies for your review.
