Malish Introduces

MIGHTY-LOK® 3 PAD DRIVER

The **MIGHTY-LOK® 3** is a new multi-purpose pad driver that can be used with diamond discs as well as pads, bonnets, and abrasive pucks.

The molded polymer pad face has hundreds of individual hooks that grip into the threads of a floor pad, bonnet or diamond disc and hold it securely while the machine is operating. The long wear facing will not tear or delaminate over time.

The pad driver is available in sizes ranging from 13" to 20" and includes a molded riser and universal Malish NP-9200 Tru-Fit® Clutch Plate mounted onto the block.
