

HARDWOOD PREP TOOL

THE REVOLUTIONARY DIAMABRUSH™ BY MALISH

RE-FINISHING HARDWOOD FLOORS STARTS WITH THE DIAMABRUSH HARDWOOD PREP TOOL BY MALISH

The Diamabrush™ Hardwood Prep Tool is the first step to rejuvenated hardwood floors! Uniquely designed to remove polyurethane and carpet adhesives from hardwood floors, effectively preparing the floor for re-finishing.

The diamond cutting surface remains free of melted or gummed up coatings and retains its sharp cutting points throughout the life of the tool. No more wasted time or money changing caramelized sandpaper.

This tool features replaceable blades which enable users to order a replacement kit and easily change used or worn blades, thus minimizing downtime. Simply loosen two screws and replace.

KEY BENEFITS HARDWOOD TOOL

- Blades feature 2 cutting edges. When diamonds wear on one side, simply turn the blades and use cutting edge on other side
- Available in sizes from 12 - 16 inch
- Ideal for the toughest removal jobs on hardwood floors
- Will not gouge wood or leave heavy scratches on floor surfaces
- Designed to fit a wide variety of rotary floor machines
- Removes polyurethane, varnishes and even hard to remove coatings such as carpet or tile glue
- Low-profile design enables the tool to travel seamlessly over heat registers carved out in the floor
