

CONCRETE PREP PLUS™

THE REVOLUTIONARY DIAMABRUSH™ BY MALISH

THE ULTIMATE CONCRETE PREP TOOL FOR HARD-TO-PREP SURFACES

This heavy-duty prep tool is ideally suited to prep floors for an application of paints, epoxies, or carpet adhesives. The Concrete Prep Plus™ tool will also remove a thin layer of paint or epoxy. Concrete Prep Plus™ is specially designed to last up to 3 to 4 times longer (up to 40,000 sq. feet) than our standard Concrete Prep Tool.

KEY BENEFITS CONCRETE PREP PLUS™

- Etches and prepares bare concrete floors creating a superior coating adhesion when applying coats of paint, epoxy, or carpet adhesive
- Prep floors in a fraction of the time & offers money-saving replacement blades
- Blades are designed to always remain in contact with the floor regardless of the floor imperfections
- Tools can be used wet to increase tool life and eliminate any airborne dust
- Available in sizes from 12 - 20 inch

MACHINERY

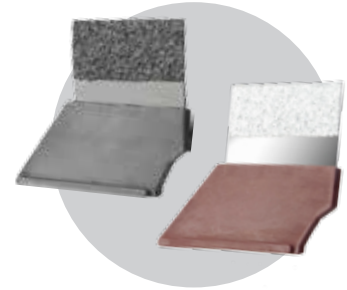

Designed to be used on your existing floor maintenance equipment. Handles pressure and weight of large ride-on scrubbers, and heavier duty floor machines and buffers.

PREP PLUS™

Uses either a 25 or 100 diamond grit bonded to metallic backing and assembled to flexible steel spring blades. *Note: Blades cannot be interchanged with other Diamabrush™ by Malish products.

UNIQUE DESIGN

Unique design ensures new diamond particles are constantly being exposed resulting in a consistent profile throughout the life of the blades.
