

SONIC SCRUB

THE REVOLUTION IN FLOOR BRUSHES HAS BEGUN!

A REVOLUTIONARY BRUSH THAT OUTLASTS FLOOR PADS MORE THAN 20 TO 1, SAVING YOU TIME AND MONEY!

Sonic Scrub is a brush designed specifically for the oscillating floor machine industry. This innovative, patent pending design from Malish, is tufted with polypropylene & durable nylon filament. Start saving hundreds by purchasing the new Sonic Scrub floor brush!

KEY BENEFITS

SONIC SCRUB

- Cost effective & more efficient than standard floor pads
- Rectangular shape reaches those hard-to-reach wall edges and corners
- Designed for heavy-duty wet scrubbing or light stripping on VCT, quarry, grouted tile and Terrazzo flooring
- Bi-level filament reaches deep into grout lines - where floor pads won't!
- Longer life expectancy when compared to floor pads

MACHINERY

Designed to be used on your existing floor maintenance equipment. Fits and works on both high and low RPM and weighted machines.

UNIQUE DESIGN

Rectangular designs ensures to reach corner to corner and edge-to-edge scrubbing.

COATING REMOVAL TOOL

Hook-and-loop attachments make Sonic Scrub a breeze to install or remove. Brush adheres to drive plate more effectively than pads.

SONIC SCRUB

THE REVOLUTION IN FLOOR BRUSHES HAS BEGUN!

WHAT IS SONIC SCRUB?

Sonic Scrub is a light weight, deep cleaning, rectangular brush designed for the oscillating floor machine industry. This innovative, patent pending design by Malish, is tufted with polypropylene (.040" diameter) and durable 6/12 nylon (.016" diameter) filament.

- Designed to clean deep grout lines & uneven floor surfaces
- Dual filament construction combined to create a superior scrubbing action for deep cleaning
- Flared tufting for edge-to-edge and corner-to-corner cleaning
- Driver block is not required allowing for simple and quick change out time
- Universal design fits all oscillating floor machines; stick, walk behind, and riders.
- Cleans with water or cleaning solutions
- Patent Pending

FLOOR TYPES

Created for ceramic / quarry / concrete and Terrazzo floors to clean deep grout lines and uneven floors.

LIFE EXPECTANCY

Field test results on tile floors show that the brush will outlast pads by 20 times, reducing your cost by 85%!

MACHINE APPLICATIONS

Sonic Scrub fits all 14" x 20" oscillating floor machines including stick, walk behind, and riders.

EASY INSTALLATION AND REMOVAL

To install, simply align and press the light weight hook-and-loop backed brush onto the machine's drive plate engaging the hook-and-loop material. To remove, simply pull the pre-molded brush tabs.

FEATURES

- Low noise (db) level
- Outstanding scrubbing action on high & low RPM machines
- Light weight
- Easy to clean
- Cleans corners and edges
- Hook & loop backing
- Built-in tabs for easy removal
- Quick change design
