

UUMC & KWU Community Garden

Join us to tend garden,
Enjoy fellowship
And learn about **Creation Care!**

Our vision

Christ We build **relationships** and share our life stories with friends and neighbors while tending the garden.

Campus UUMC members and KWU students/staff **unite** to maintain the garden.

Community We serve our **community** by sharing the **harvest**

Why gardening?

In the very beginning, God planted a garden, where He would meet Adam and Eve every day. At that time, "it was the earth that stood as the perfect expression of God's love and care for humanity. There was no human need that could not be met through God's creation" (Carla Barnhill)

We wish to have fellowship, tend the garden in community, and marvel at the bounty of God's creation together.

We want to use this opportunity to learn about Creation Care, healthy eating, and serve the community as we build relationships with one another and our neighbors, and share our harvest.
