VRMC Update July 2025

07/14/2025

We have completed 6 of the 15 80 year old sections with 3 sections assigned. We have identified 102 recently deceased Voters for the month of June-2025. I requested and received a copy of the current Voter Roll on 06/23/2025 from the Voter Registrar's office. We still had 31 out of 31 81 year old deceased voters and **15** out of 145 recently deceased voters left after this comparison. They were presented to Mr. Benavidez at the Voter Registrar's office on 06/27/2025.

We have submitted a total of 1025 deceased Voters to be removed from the Voter Roll.

On 06/23/2025 we received the list from the SOS of suspected non-citizen registered voters on the State of Texas Voter Rolls. Of the 454,289 entries I separated out 6299 entries for Nueces County. After comparison to the current Voter Roll, the list was trimmed down to 5094 possible non-citizen registered voters in Nueces County. I spoke with Mr. Benazidez in the Voter Registrar's office about this list and he was unaware of it or any guidance from the SOS on how to address unproven citizenship. He suggested we speak with Mr. Kieschnick about this matter.

We spoke with Representative Todd Hunter on 12-Jul-2025 and he is trying to set up a meeting the first week of August with individuals from the SOS's office that work directly with the State Voter Roll database concerning the multiple Voter Type Method entries in their database for Nueces County that are not in our local Voter Roll database.

07/28/2025

We have completed 11 of the 15 80 year old sections with 2 sections assigned. We have found 18 deceased 80 year old voters so far. We have identified 105 recently deceased Voters for the month of June-2025. We have identified 73 recently deceased voters for the month of July-2025. There has been no interaction with the VR's office lately.

We have submitted a total of 1025 deceased Voters to be removed from the Voter Roll.

We are discussing about submitting the 5094 possible non-citizen registered voters in Nueces County from the SOS list to Mr. Kieschnick at the Voter Registrar's office.

We have communicated with Representative Todd Hunter several times about setting up a meeting the first week of August with individuals from the SOS's office that work directly with the State Voter Roll database but still nothing definite.
