Voter Roll Maintenance Committee Report

Committee Chair John Wheeler

A photograph of a "VOTER REGISTRATION APPLICATION" form from the State of America. The form includes sections for: 1. Check all that apply (New Registration, Name Change, Address Change, Political Party Affiliation, Non Affiliation Change, Signature Update); 2. Are you a U.S. Citizen? (Yes/No); 3. First Name - Middle Name - Last Name; 4. Will you be 18 years old by the next election? (Yes/No); 5. Suffix (JR., SR., ETC.); 6. Birth Month, Day, Year; 7. If you do not possess a State Driver's License, ID Number give the last 4 digits of your Social Security Number; 8. Zip. A pen is resting on the form.

Voter Roll Maintenance Report

11.24.2025

- I met with Mr. Benavidez in the Voter Registrar's office on Thursday 11-13-2025 and presented him with the Voter age groups 79 (26) and 78 (21) and the recently deceased Voters for 0725 (18) and 0825 (31). I also presented him with 226 Moved Voters, 219 of which have moved out of State and Re registered. We have currently identified 41 recently deceased voters for the month of November-2025 (1125) and 5 for the age group 77. Mr. Benavidez also gave me the SOS list of 41 possible Non-Citizens found on the Nueces County Voter Roll. These are being tracked in TPA to monitor their progress. 10 of these have voted in our elections and 3 are already on SUSPENSE. I believe many will be found to be legitimate Citizens

Commissioners' Court Committee Report

Chairs: Ace & Velma

Ashmore

COMMISSIONERS COURT COMMITTEE

Report dated 11.24.2025

Monitor activity which are presented in front of the commissioner's court dealing with elections. Current activity:

- a. Review of the consolidation of Precincts combination (129 to 91) and proposed divisions in reference to growth of population in the area.
- b. Delivered a summary of the Coding Accuracy Support System (CASS) to the County Judge and Commissioners for consideration.
- c. Commissioners Court confirm special election results in a special meeting (3:39 minutes) 17 Nov 2025
- d. Approved new procedure for submitting agenda items, effective 1 January 2026
- e. Next meeting 10 Dec 2025

Coding Accuracy Support System

- Certification process that ensure the accuracy of software that uses the USPS database
- Key elements of certification process
 - **DPV** (**D**elivery **P**oint **V**alidation)
 - **LACS** (**L**ocatable **A**ddress **C**onversion **S**ystem)

Which departments need to have their mail system certified? *

- Tax Assessor/Collector (Registers voters and may conduct elections)
- County Clerk (Serves as Chief Elections Officer)

* Departments that EIP have interest in.

- **DPV (Delivery Point Validation)**

DPV is a method of determining if an address is real. It compares addresses against an authoritative database to see if that address is already on file. If it is on file, it's both a real address and an active one, meaning that it's both an actual location, and one that's currently occupied and signed up to receive mail. Addresses that don't have a match in the database are "**invalid**", for whatever reason, and either cannot or are not receiving mail.

LACS (Locatable Address Conversion System)

LACS is a database maintained by 911 emergency services to make sure that a location can be found in case emergency services are needed. It keeps track of addresses that have been updated in order to match a national standard, which is used to make finding locations easier in an emergency.

NCOA (National Change of Address)

NCOA, it's the database that tracks forwarded addresses. In the event that someone has to move from one location to another, the USPS has forms (it can be done online too, now) that you can fill out, telling them who you are, where you currently live, and where you're moving to. That way, when mail addressed to you goes to your old address after you've relocated, the mailman will instead forward it to your new address

COST SAVING

Every 2 years a minimum of 213,659 Voter Registration Forms are sent out.

Every 2 years Absentee Ballots range between 6,774 to 6,929.

Software cost between \$800.00 to \$2.00 per 1000 mailing

Cost to process Voter Registration Form/Absentee Ballots approximately \$7.68 (2018 data)

Breakeven point TBD

Legislative Committee Report

National, State and Local Report President

Brian O'Callaghan

Presentation of the US Citizens Election Bill of Rights

We, the Citizen Voters of the United States do hereby proclaim this Elections Bill of Rights to secure the integrity of America's elections, which are the bedrock of America's constitutional republic; so that our elections are protected from fraud, manipulation, and error, free from foreign interference and influence, enabling the citizens of the United States of America to faithfully give to or withdraw our consent from those who seek to govern our nation, our states, and our local communities, enshrining in the laws of our nation the following principles:

I. Only US Citizens Participate in US Elections, in Any Manner

- Documentary proof of citizenship / confirmation of citizenship status to register
- States adopt Only Citizens Vote constitutional amendments
- States must confirm citizenship status of current registered voters; compare voter rolls to state DMV / other data
- Social Security Administration must confirm citizenship status per HAVV
- DHS must provide data to states at no cost to confirm citizenship status for any new registration, current voter lists, upon request
- ID for voting must clearly state CITIZEN on the ID; only IDs issued to US Citizens and state residents can be used for registration and voting
- Eliminate registration at any agency other than election offices and DMV
- No registrations added to voter rolls unless confirmation of identity, residency and US citizenship; States must confirm missing ID for residency, identity, citizenship or remove from rolls
- Federal (and state) Census to confirm citizen population, apportion representation among states and base all representative districts (local, state, federal) on citizenship population only
- Prohibit foreign money in issue campaigns and elections, directly or indirectly, with criminal penalties for violation
- Prohibit foreign ownership of voting equipment companies and/or election related systems, prohibit foreign made or ownership of software or parts used in voting equipment

II. Voter ID For All Votes / Voters: Acceptable ID Confirms Citizenship

- Photo ID for all methods of voting
- Permissible ID for voting can only be type that confirms identity, residency, and US citizenship
- Additional verification for people voting by mail (QR Code, Valid passport, or other non-subjective identifier linked to unique voter registration number)

III. Restore Election Day, Qualify Absentee Voters; Results Election Night

- In-person voting on Election Day, limit in-person early voting to 7 days
- Vote in precinct polling places, limit size of precincts so all can vote on Election Day
- Establish criteria for eligibility to vote absentee
- Require verification of identity of citizenship, identity and residency of all voters, using proper ID; no vote can be counted until verified eligible voter
- Eliminate Same Day Registration

IV. Confirm Citizenship, Identity, & Residency of All Voters, Rigorous Voter Roll Maintenance

- Compare voter registration lists against citizenship data, confirm identity and residency of all current registrants
- Require regular, ongoing list maintenance by all jurisdictions
- Repeal blackout periods for list maintenance under federal and state law
- Publish qualified voter list before Election Day; list of who voted within three (3) days of election
- Election offices must accept documentation of bad registrations from citizens; act on citizen challenges
- Institute procedures for USPS and DMV to notify election office of registrants' moving
- Penalties for election officials' failure to clean voter rolls, retain private right of action to enforce
- List Maintenance records are public records, even if outsourced to vendor
- Prohibit sharing of DMV data with any 3rd party or nongovernmental entity

V. Replace All Vulnerable / Insecure Voting Technology; Only Pre-Printed Secure Paper Ballots, Hand-Marked

- Eliminate touchscreens, ballot marking devices, QR Codes read by machines
- Allow for certain technology solely for disabled voters, supervised, pre-approved
- Prohibit internal modems and all remote access capability for any voting technology
- Mandatory, public pre-election testing of all technology used in elections, not vendor controlled
- No foreign-owned voting equipment companies, no foreign-made voting equipment, databases, parts, or software
- Manual confirmation and backup for any technology process, including tabulation, e-poll books,
- Publish results at each voting location prior to delivery to county, then to state, to allow comparison of results and data by public
- All voting technology built on open-source hardware and software; eliminate proprietary code

VI. Confirm Accuracy of Election Results Pre-Certification; Require Post Election Independent Audits

- Require precinct, county/city, AND state reconciliation of number of voters to equal number of ballots to equal number of votes
- Confirm by statute certification is discretionary, not ministerial, to ensure accuracy of results
- Require independent post-election audits of election procedures & results by state auditors / 3d party (not the election offices auditing themselves)
- Eliminate risk-limiting and other pretend 'audits'

VII. Ensure Transparency of Elections and Election Records

- Ensure all processing, voting, tabulation procedures are open to meaningful public observer and media access
- ALL election records (including electronic) are by law public records that must be retained for 24 months
- Publish/ make available at no cost all election records (redacted PII), including all chain of custody documents, cast vote records, ballot images, electronic and all other records related to the election
- Citizen standing to sue if records are withheld or destroyed
- Provide civil and criminal penalties for withholding / destroying election records

VIII. Protect Deployed Military Voters, Separate from Overseas Civilians

- Separate procedures for registration / voting by overseas civilian citizens from deployed military
- For military:
 - Apply to all active-duty deployments, not just overseas
 - Allow registration / voting if prior resident, registration in state
 - Allow email/fax FPCA, voting
 - Require copy of military ID or valid US passport
 - If no prior registration / residency in state, allow voting in District of Columbia
- For civilians:
 - Require copy of valid US passport to register/vote from overseas
 - Require prior residency, registration in a state to register / vote in the state
 - Require proof of overseas residence (lease, other documentation)
 - If no prior residency or voter registration in state, limit to presidential only, count with District of Columbia voters

IX. Stop Billionaire-Concocted Election Schemes

- Prohibit ranked choice voting, National Popular Vote (to replace the Electoral College) and other artificial voting methods
- Protect one person, one vote, and America's Constitutional framework in voting and elections

X. Citizen Standing to Enforce Election Laws; Protect Laws from Leftwing Legal Apparatus; Accountability & Penalties for Violations

- Citizens have statutory standing to enforce election laws (such as appeal of HAVA decisions), and to enforce election statutes against officials ignoring / breaking election laws
- Election law challenges require facts establishing particularized injury to individuals impacted or to be impacted, not speculative assertions by groups
- Election laws should be self-executing, with severe penalties for violations

OUR NEXT MEMBERSHIP MEETINGS

- a. January 5th Membership ONLY meeting: 6:30PM Here at Silverado**
 - i. Organizational meeting: new officers and updates to bylaws and the goals for 2026.**
 - b. January 12th TBA is working on having the rest of the US District 34 U S House of Representative Candidates. Just like the previous event, the candidates will receive ahead of the event the list of EIP topics we want discussed.**
 - c. On January 20th, Tuesday evening at 6:30PM at Silverado Restaurant, we will host the Attorney General for Texas Candidates: Mayes Middleton and Aaron Reitz. These candidates will address only Election Integrity Issues**
- SPECIAL EVENTS**

At Silverado, the next Attorney General of Texas.

Christmas Party December 8th Here at Silverado Restaurant
