

VRMC Update August 2026

On 08/24/2026 I requested and received the current copy of the Nueces County Voter Roll. I compared it to all outstanding submissions that have been made to the VR's office. Only 1 deceased has been removed in the last month.

Submissions to Voter Registrar

Cells highlighted in YELLOW are waiting to be submitted to the Voter Registrar's office

We are working on the second mail-out campaign which is a total of 377 broken into 2 sections of 200 and 177 respectively. They are almost ready to be mailed out just waiting on postage. After asking for donations of \$800.00, we have received a total of \$360.00 toward our goal to pay for envelopes and postage. Thank you to everyone who has donated.

We have identified 80 voters (ineligible registrations) in ELLY for people that have moved, re-registered, and voted in another state. There is a new Beta Test report that checks voting histories between states to highlight voters that appeared to have voted in the same election in different states. We found 4 probable matches but of the 4 that were matched, 3 were probable matched to the wrong individual. One looked like a legitimate double vote but the Texas vote was a Vote-By-Mail Ballot so it is suspect SOS Data. It was verified at the Nueces County Clerk's Office that the Voter never voted in the Texas 11/24 General Election.

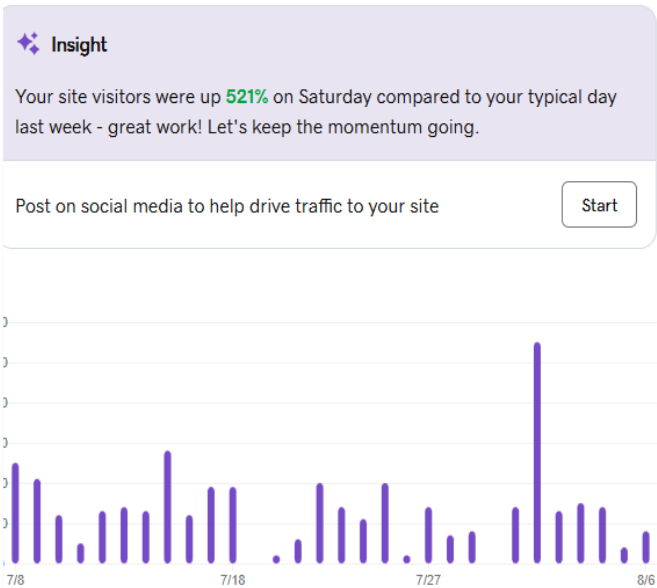

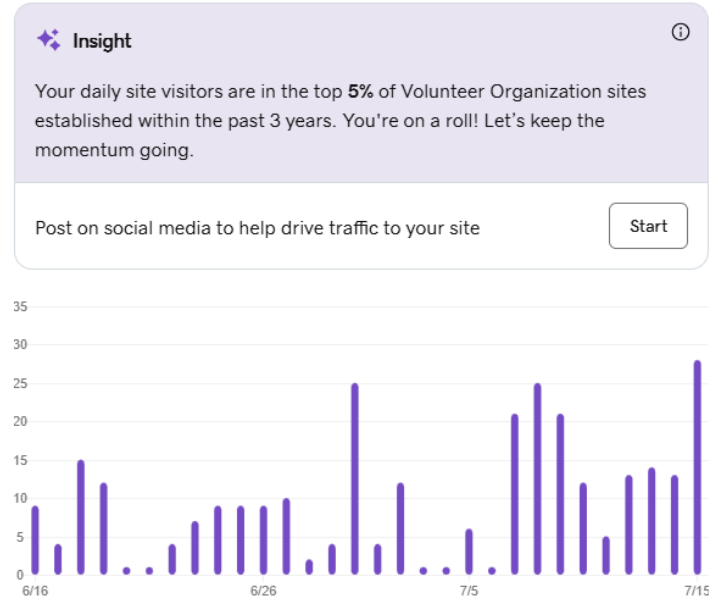

We are temporarily pausing the mail-out mentioned above to explore an option of getting these voters removed from our Voter Rolls without the mail-out. We will try using the correct trigger terminology, Ineligible Registration(s), instead of Moved Voters, with our next submission of the 80 MRV from ELLY to get the VR's office to actually remove them instead of placing them on SUSPENSE.

We have been working on getting a meeting Judge Connie Scott, and then the Commissioners' Court presenting ELLY's benefits and potential savings to the County. It will also show the CASS (Coding Accuracy Support System) address system and it's benefits.

Our Recently Deceased team in 2025 averaged 33 deceased voters per month found that the SOS and the local Voter Registrar's office missed. Now in 2026, that average is less than 5 with the last 4 months submitted totaling only 6. Apparently the SOS has made a change for the better. If this rate continues, we will cease the Recently Deceased tracking and submitting to the VR's office. It is becoming too much of a strain on our volunteers to continue.

On 07/27/2026 I resubmitted 0925, 0226, 0326 recently deceased, Mail Facility 1 and 2, and MRS submissions to the VR's office. I also submitted 0526 recently deceased. ELLY MRV (Moved/Registered/Voted) E4 (390) will be resubmitted along with MRV E5 (80).

On 08/01/2026 I gave an Introduction to ELLY training in Ft Worth to the Tarrant County GOP Voter Roll Review committee. Two people were already using ELLY and two more signed up for ELLY access. Everyone showed a lot of interest and asked many questions. While in Tarrant County I spoke with several people from Dallas County about giving them a presentation.

On 08/03/2026 I was contacted by the Republican Women of Cameron County to give an Introduction to ELLY presentation to their group in Harlingen, TX on 10/06/2026.

On 08/26/2026 Pam and I met with County Judge Connie Scott to discuss the USPS CASS system for addresses and the benefits of using ELLY in the Voter Registration Office. She was very receptive and said she would have it added to the calendar for November after the election.
