

VRMC Update March 2025

The February 2025 Texas Voter Roll data (Jan 2025) was uploaded in TPA on 03/01/25. The progress of the previously submitted items to the Voter Registrar's office are listed below.

CASE	Submitted	Remaining
0125	82	0
1124	1	0
1024	8	1
86-87	40	1
85	31	7
	162	9
DUP	8	1
MRS	23 / 15	7
114+	66	50 / 2

On 03/05/2025 I met with County Clerk Kara Sands to discuss a Voter that appeared to have VBM in the 11/05/24 General Election after he died on August 21, 2024. She verified he was sent a VBM ballot for that election but it was not returned. This appears to be the same SOS data issue where voters appear to have voted twice in the same election (current list is 79 voters). It possibly has to do with the Ballot by Mail Tracker system that was implemented.

Ms Sands stated she would bring the report for VBM ballots that were surrendered for the 11/05/24 election to our next EIP meeting. She also said that she had seen that the Voter Registrar's office had sent out letters for the 114+ year old voters to update their birth dates in the Voter Roll.

I also picked up a copy of the current Nueces County Voter Roll on 03/05/25 to compare the 84 year old deceased voters and the recently deceased voters from 02/2025. After the comparison we have 22 out of 25 original 84 year old deceased voters and 26 out of the original 109 recently deceased voters left to present to the Voter Registrar's office after the comparison.

I am waiting to schedule a meeting with Mr Kieschnick from the Voter Registrar's Office who is still on vacation this week. We will have submitted a total of 794 deceased Voters to be removed from the Voter Roll.
