

Angel Quest Oracle

written by Karen Noé

illustrated by Marie Antoinette Kelley

Psychic medium and author Karen Noé and portrait and fine artist Marie Antoinette Kelley have joined together to create the *Angel Quest Oracle*, a heavenly divination card deck and guidebook.

This deck was created to enhance direct communication between you and your angels. As you invoke those in the heavenly realm, you'll receive accurate, uplifting messages to help you better understand the steps you need to take to move forward in life.

Each of the forty-four beautiful and unique celestial cards features a short personal message from the angels that answer important life questions, while the step-by-step instruction in the accompanying guidebook explains how you can give a perfect angel card reading, both for yourself and for others, and includes more detailed meanings for each card.

Whether you choose to pull a daily reflection card or perform a more detailed card reading for yourself or others, the *Angel Quest Oracle* will guide you through it all.
