AutoCAD

Grasshopper

## SOFT SKILLS

Attention to Detail

Organization

Communication

Multi-Tasking

Model Making

Spanish

## ABOUT

I define myself as an aspiring architect with strong creativity, intuition, and drive, seeking hands-on experience that will further my skills and knowledge in the architectural field. I am a strong believer in sustainable architecture over architecture as a "spectacle", but value innovative design thinking and wish to learn more about how offices prioritize the improvement of our future.

## EXPERIENCE

Redwood City, CA  
May - Aug '22

### Creative Learning Center

*Behavioral Technician*

- Managed students' behavioral problems and teach strategies for supporting self-control.
- Developed individualized interactive lessons and practice sheets for students (ages 10-15).
- Conducted progress reports and evaluation of student's performance, behavior, and social skills.

Santa Monica, CA  
May - Aug '22

### Shin Shin Architecture

*Architectural Design Intern*

- Developed conceptual design layouts and strategies for plans and sections.
- Communicated and worked closely with other coworkers to produce duties that were assigned.
- Performed site visits and reported construction progress on the projects to be presented to the manager.

Mountain View, CA  
May - Aug '21

### Pacific Catch

*Food Server & Hostess*

- Collaborated with team members to work efficiently and quickly to reduce wait times.
- Helped support food preparation, managed deliveries, and verifying meals at the expo line.

## EDUCATION

2020 - Current

### University of Southern California, Bachelor of Architecture

*Relevant Coursework: Architectural Design 102A-303A, Building Structures and Seismic Design, Design for Thermal and Atmospheric Environments, World History of Architecture, Materials and Methods of Building Construction. GPA: 3.94*

2016 - 2020

### Mountain View High School

*Relevant Coursework: Engineering Technologies, Architectural Design, Photography, Spanish IV AP. GPA: 4.1*

Jun - Jul '19

### Cal Poly (SLO) Architectural Immersive Design Workshop

- 6 - week exposure to core aspects of architectural thinking as well as different disciplinary perspectives
- Hands-on physical modeling projects, presentations and critiques

## INVOLVEMENT & LEADERSHIP

2021 - Current

### Engineering Earthquake Research Institute (EERI)

*Architectural Program Design Lead*

- Design the program spaces inside the building and design interior plans.
- Trying to maximize the "profit" of the building.
- Work in collaboration with the façade and sustainability team as well as the structural team.

2020 - Current

### Student Association for Women in Architecture (SAWA)

*Member*

- Encourages design achievement and connections within women in architecture both academically and professionally.

2017-2020

### Interact Club

*President & Vice President*

- International organization that fosters leadership and responsible citizenship through community service projects
- Organizing at least two major projects a year: one directly benefiting the community, one encouraging international understanding and peace.
- Worked in collaboration with many other members to arrange talent shows, charity dinners, crab feeds, and other fundraising events.
