SERVICE APPOINTMENTS DESCRIPTIONS

Spring Activation Service

Having your sprinkler system professionally activated by Advanced Sprinkler and Backflow, Inc. each spring ensures that your lawn and landscape will get the best watering coverage your sprinkler system can offer, all without worries of leaks, clogged sprinklers or wasted water! Professional Spring Activation Service starts your yard out on the right foot!

The Spring Activation Service includes:

- ▶ Safely pressurizing your residential lawn sprinkler system
- ▶ Checking for manual and automatic operation of the sprinkler system controller and remote valves
- ▶ Inspecting each individual sprinkler head by clearing grass and debris away from the sprinklers, cleaning any clogged nozzles and readjusting the sprinklers as necessary
- ▶ First hour of service included

Mid-Season Check-Up Service

Mid-Season Check-Ups ensure that your sprinkler system continues to operate at peak performance no matter what the weather is like. Mid-Season Check-Ups prevent small problems from becoming big, expensive ones by identifying and repairing them earlier.

The Mid-Season Check-Up includes:

- ▶ A complete system check of all of your sprinkler components, Controller, Valves, Sprinklers, and Weather Sensors
- ▶ Re-programming your controller for current and expected weather conditions
- ▶ First hour of service included

Winterization Service

Winterization Service completes your annual sprinkler system maintenance by safely and effectively eliminating the possibility of freeze-damage in your sprinkler system. Winterization service is your insurance policy against the damaging and expensive effects of Winter.

The Winterization Service includes:

- ▶ Shutting off the water supply in the sprinkler system
- ▶ Safely draining the water out of your sprinkler system

Large Systems & Commercial Plans

Call for a customized quote or a service plan for your large (13 or more zones) sprinkler system, for your out-of-Dougherty/Lee area sprinkler system. You can't beat our service!
