

WaterMix Basic Treatment Cycle					
Phase One: Cleaning			Phase Two: Maintenance		
Week 1	Week 2	Week 5	Week 7	Week 10	Week 13
Add 1 oz WaterMix to 1,500 gallons of water	Add 1 oz WaterMix to 1,500 gallons of water	Add 1 oz WaterMix to 1,500 gallons of water	Add 1oz WaterMix to 5,000 gallons of water	Add 1oz WaterMix to 5,000 gallons of water	Add 1oz WaterMix to 5,000 gallons of water
Additional Notes:					
<p>* Apply product near aeration tube or in the pond's/water feature's water source so that the product will move through the water more effeciently.</p> <p>* Several variables will affect results (water temperature, depth etc.) so results may vary, but clearer, cleaner water can be achieved in about four weeks.</p> <p>* Note that treatment initiated in spring will see results faster than treatments initiated in summer.</p>
