RETREAT

OVERVIEW

THERAPEUTIC HEALING EXPERIENCE AND INTEGRATION

This retreat incorporates vast studied knowledge and experience within the mental, scientific, natural and alternative health fields to deliver an extensive program of healing and self-discovery.

You will feel held and supported as I guide you, and you allow yourself to fully connect, to not only your higher self, but to source and oneness and the love from which we all came. This safe and loving space allows you to re-member your true self; the version of you before you were conditioned and told what to think, feel, believe and do that may not have been authentic to you. To what has contributed to and created the disconnection and dis-ease that may have manifested into emotional turmoil and or physical disease that you yearn to transform and heal to live a more fulfilling and purposeful life.

I provide this space in deep connection from a pure source of love, humbleness, non-judgement, compassion and embodiment of learnt and lived experience. With loving support; releasing of fears, past conditioning, doubts and suffering you will walk away with greater conviction and self-belief, feeling lighter, supported and full of hope and alignment with a deeper connection to your authentic self.

Receiving guidance from your true self as you step back out with your heart open and your fears and worries no longer holding you captive.

You will leave with the imprint of deeply authentic and vulnerable connections and lifelong bonds with myself and other participants. Receiving loving guidance and being held in a supportive container with myself and other participants in our online group space where we can assist each other going forward.

This is a real-world in-depth experience not a surface level feel good escape or in the moment experience and aims to address the underlying emotional contributors to dis-ease and create profound change in your life and continue to expand your personal development long after the retreat ends.

RETREAT

THERAPEUTICS

THERAPUETIC HEALING MODALITIES AND PRINCIPLES INCORPORATED

Somatic therapies focus on the connection between the mind and body and examine the ways in which emotions may manifest within the body and engage the whole body while navigating thoughts, emotions, and memories, unlike traditional forms of therapy which focus only on engaging the mind. Somatic therapies can assist a variety of conditions such as trauma, stress, anxiety, depression, self-esteem, trust and intimacy issues, grief, loss, addiction and more which will be the mainstay of this therapeutic retreat.

Psychosomatic therapy and holistic counselling look at how the mind affects the body and where trauma is stored, using emotional release trigger point therapy alongside body language, posture, physical ailment signals and their contributors, and explores and uncovers how we can be more in alignment and ease within our own bodies and minds and have a greater understanding of others.

Naturopathic Medicine aims to treat the root causes within the body physically and emotionally using a combination of mental, emotional and body therapies, nutritional and herbal medicines and support underpinned by scientific and experienced evidence.

All therapies aim to address the underlying emotional contributors to dis-ease and greatly change a person's life and continue to expand their personal development long after the initial treatment and not just provide a feel good in the moment experience but offer life changing results.

Hermetic Therapy is the umbrella term, and I will be using all studied knowledge as well as deeply lived and transformed experience, extensive interpersonal and individual work with clients, my background in childcare and therapy and my connection, belief and trust in my own and your own innate wisdom and guidance to provide a highly personal and deeply transformative real-world experience.

CONNECTION

GROUP THERAPEUTIC HEALING

INTERPERSONAL COLLABORATIVE CONNECTION

The essence of group therapeutic connections reveals itself as a powerful force that transcends casual relationships and when we join together with a shared purpose, the journey takes on a deeper meaning, weaving together individual narratives into a collective tapestry of discovery. The resonance of shared beliefs, aspirations and the deep and vulnerable bonds create a harmonious energy that amplifies and goes beyond the overall individual healing experience.

Individual contributory offerings within the group encompass bringing to the group a offering unique to you. Something you would like to share or lead the group in experiencing or teaching such as part of a modality you have learned, an activity or therapeutic movement exercise, or sharing something important to you that you feel the group could benefit from. This is not in depth or to be over analysed, anxious about or thoroughly planned.

Group therapeutic connections enable us to experience being vulnerable, courageous and authentic in a safe and mutually beneficial environment. Allowing us to bravely continue and maintain the uncovering of our true and authentic selves as we reintegrate back into our everyday lives feeling supported.

TESTIMONIALS

TRANSFORMATION & INTEGRATION

Well well well, where do I begin with this incredible WOMAN. I knew I would meet Ness, from the moment I heard about the work she does, I just had to meet this woman and experience her magic, it was just a matter of when. A few months later I was at a point in my journey when I knew I needed some support and my soul knew it was time to meet her. I booked in my first session with her and wow, my mind was blown but most importantly I felt so held and so seen.

Vanessa helped me in ways I can't even begin to describe. I remember the deep emotions, and she helped activate the wisdom that had been laying dormant inside my body and just always believed in me and could see the woman I came here to be. Even if at that time I didn't fully realise it, she knew and reminded me of my love and power. Since then it's been a beautiful domino effect of expansion, releasing and love like never before.

Not long after my first session with Ness, the opportunity to travel to Mt. Shasta came forth and I knew I was going to join them. The trip was one like no other. True authenticity, open hearts, and oneness. Ness is a force of love to be reckoned with. I honestly don't know how she does it! Her ability to hold herself and us all, while channeling, organising 9 women, doing hands on healing, and calling us forward with love to be the best versions of ourselves; I'll be forever grateful to her, and all the incredible light she has brought to my life and the planet for us and generations to come.

The work she is doing is so incredibly important and special and I am SO excited for all the people who get to walk alongside her and be guided by her wisdom. Love you Ness x - Cassie

I have been on many Retreats over my 60 years and I have to say this retreat to Mt Shasta was the best retreat I have ever experienced; monumental and transformational. Vanessa is such a beautiful soul and the way she held this retreat was not only full of wisdom but just so loving, caring and nurturing, and there were lots of tears and so much laughter. Taking us out of our comfort zone at times everyday was so exciting and the places where we shared in group therapy and meditated in nature were beautiful and healing for the whole group and just wow amazing!!! I have never experienced anything like it and have learnt so much!

Staying at the base of the mountain and all together in communion and the food we cooked and shared was delicious and heartfelt. I loved it and every minute being there and I have truly come home a different person feeling just amazing and ready to fulfil my passions and purpose and have let go of so much past suffering!! Thank you deeply Ness and all the wonderful souls that were on this retreat: Thank you from the bottom of my heart I will never forget this special Retreat - Robyn

One word for this lady "amazing" Vanessa is extremely passionate and skilled. I remember my first appointment and I immediately felt someone was listening and genuinely cared. We have built a beautiful client /clinician relationship. Her knowledge and empathy is natural and free flowing. Vanessa is the true definition of an Angel - Jen

A life changing Retreat. I recently had the privilege of attending a spiritual retreat facilitated by Vanessa, and it was a truly transformative experience. From the serene setting to the thoughtful activities, every aspect of the retreat contributed to a deep sense of introspection and renewal.

Taking place in beautiful Mt Shasta, Northern CA, the peaceful environment was perfect for quiet contemplation, healing and purging of the old. Vanessa did an amazing job of creating a warm and welcoming atmosphere that immediately put everyone at ease. Some beautiful lifelong friends were made on this special journey. I highly recommend Vanessa's retreat to anyone seeking a profound journey of self-discovery and spiritual renewal. It's a testament to her expertise and dedication to creating meaningful experiences that leave a lasting impact on the heart and soul. I can't wait to go on the next one. JL

*I had a psychosomatic healing with Vanessa and with her loving approach I felt at ease and able to take my time to open up old grievances from childhood memories. With extreme care and loving hands and heart that went deep into these subconscious wounds and emotional hurts. Vanessa also followed up with naturopathic remedies to support the healing process as well as words of wisdom to reflect on, which really helped to confront mental blockages. I am now always able to revisit the healing messages as 'things' come up. I have recommended Vanessa's unique healing approach to others and will do further healing sessions and continue uncovering my unique self. Thanks again
