In a class by itself, Barista Artisan Shave Soap has a delightful coffee aroma to greet you in the morning. Carefully hand crafted and made-to-order, Barista Artisan Shave Soap is perfect for wet shavers that crave exciting new experiences.

Barista is a glycerin based soap, 100% vegan, all-natural, and has no artificial ingredients. Barista explodes into lather!

The Barista Story:

Barista is uniquely aimed at consumers wanting to experience wet shaving with a quality shave soap that smells good and lathers easily. Barista is sold in 3 ounce bars for \$14.99.

Barista Instructions for Use:

Barista will explode into lather with only a little bit of water on the shave brush. We designed the soap to be used where running water may not be that plentiful. It therefore is excellent for camping and on vacation, or anywhere water is scarce. Of course Barista will lather with any type of shave brush, but we recommend our JAVA "No Kill" line of synthetic shave brushes.
