

LUMPKIN COUNTY 4-H & GMMG 2025 PLANT SALE

February 17th – March 22ND

FERNS

Tassel Fern, *Polystichum polyblepharum*

Height: 18-24 inches evergreen perennial
(space 24 inches apart for full ground cover)
Dark green, glossy foliage with fuzzy bronze stems
Plant in well-drained soil, part to full shade
Heat and drought tolerant, keep well-watered until established
Deer resistant

1 gallon pot
\$10.00

PERENNIALS

Beard tongue, *Penstemon digitalis* 'Huskers Red'

Height: 2-3 feet tall, up to 2 feet wide semi-evergreen perennial
Plant in well-drained soil in full sun, do not over-fertilize
Blooms late spring through early summer
Color: white tubular flowers on tall stems, with dark maroon-red leaves and stems
The foliage is maroon in spring, turning greener with age but with maroon veining. The stems remain red making a nice contrast.
'Huskers Red' is drought tolerant once established. Wet winter soils will cause root rot
Native hybrid
Attracts bees and hummingbirds
Resistant to deer and drought
1 gallon pot - \$10.00

Bee balm, *Monarda Sugar Buzz* 'Bubblegum Blast'

Height: up to 2 feet tall and wide perennial - dwarf

Plant in full sun to partial sun

Blooms July through August (deadhead to prolong bloom)

Color: bubblegum pink flowers on aromatic green foliage

In midsummer, this compact form will be covered with bubblegum pink blooms perched atop upright stems. This disease resistant cultivar is easy to grow, and a beautiful addition to a pollinator-friendly garden. This plant is a butterfly and hummingbird magnet!

Native hybrid

Deer resistant, mildew resistant foliage

1 gallon pot

\$10.00

Black Eyed Susan, *Rudbeckia flugida* 'Goldsturm'

Height: 18-24 inches tall and wide perennial

Plant in full sun

Blooms mid-summer through fall

Color: large golden daisy-like blooms with prominent raised black centers

Very attractive to butterflies, and the seed heads provide winter food for songbirds

Easy to maintain, it is unbothered by insects or drought, will tolerate clay soils

'Goldsturm' is a true perennial variety, getting bigger and better each year

Native hybrid

Deer and rabbit resistant

1 gallon pot

\$10.00

Blanket flower, Gaillardia 'SpinTop Mariachi Copper Sun Improved'

Height: 9-12 inches tall and wide perennial

Plant in full sun, in well drained soil

Blooms late spring through fall

Color: rusty-red daisies with yellow tips with a chocolate center

Flowers are a favorite of bees and butterflies, and goldfinches adore the seed heads

A good cut flower for fresh or dried arrangements

Deadhead to encourage reblooming

Deer resistant, drought tolerant

Native hybrid

1 gallon pot

\$10.00

Blazing star, Liatris spicata 'Kobold'

Height: 2-3 feet tall, 1-2 feet wide perennial

Plant in well-drained soil in full sun

Blooms late summer from July through September

Color: bright purple flower plumes

'Kobold' is a compact variety, with each large feathery-looking, bright purple flower plume growing up to 36 inches tall. Due to its small size, this plant requires less staking as its sturdy stems can properly handle the weight of their large flowers.

Flowers are useful as fresh cut or dried

Drought tolerant once established

Attracts pollinators of all sorts

Native to the eastern United States

1 gallon pot

\$10.00

Blue Star, *Amsonia hubrechtii*

Height: 2-3 feet tall and wide perennial

Plant in full sun to part shade

Blooms through late spring

Color: powder blue 1/2" star-like flowers appear in clusters atop stems rising to 3 feet tall

Feathery green summer foliage with a bright golden fall color

Beautiful planted in masses

Attracts butterflies

Deer tolerant

Native to the central Arkansas mountains

1 gallon pot

\$12.00

Catmint, *Nepeta racemosa* 'Walker's Low'

Height: 2-3 feet tall and wide perennial

Plant in well-drained soil in full sun to partial sun, do not overwater

Blooms from spring to fall

Color: pale blue to deep violet small trumpet-shaped flower clusters and gray-green aromatic foliage

Thrives in dry soils and is very tolerant of drought. Somewhat intolerant of the heat and humidity of the southeast, however, and appreciates some light afternoon shade in hot summer climates.

Shear flower spikes after initial flowering to promote continued bloom.

Attracts pollinators of all sorts

Deer and rabbit resistant

1 gallon pot

\$10.00

Coneflower, Echinacea purpurea 'Pollination Yellow'

Height: 24 inches tall and wide perennial

Plant in full sun, in well drained soil

Blooms early summer to fall

Color: butter yellow, with a prominent darker yellow/green cone

Beautiful daisy shaped flower with fully double petals

Deadhead to prolong bloom period

Attracts bees and butterflies

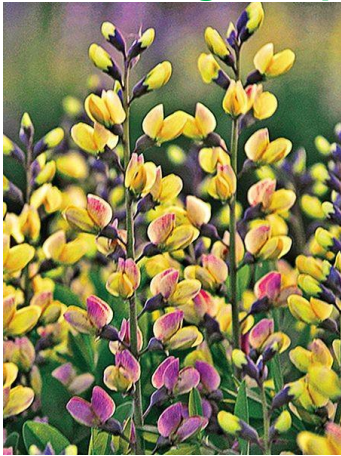

Excellent heat and drought tolerance

Native cultivar

1 gallon pot

\$10.00

False indigo, Baptisia hybrid 'Decadence Pink Lemonade'

Height: 3-4 feet tall and wide perennial

Plant in well-drained soil in full to partial sun

Blooms in late spring to early summer, followed by eye-catching seed pods

Color: bold yellow and purple flower spikes, on dark stems

Has a full and bushy habit, a perfect substitute for shrubs.

Can be used as a specimen plant, or in back of the border.

Baptisia is easy to grow and will thrive with little maintenance.

Plants are very long-lived once established.

Native to North America, hybrid

Attracts bees, butterflies and other pollinators

Deer resistant

Proven Winner

1 gallon pot

\$17.00

Joe Pye weed, *Eupatorium purpureum* 'Euphoria Ruby'

Height: 2-3 feet tall and wide, native hybrid perennial

Plant in full sun to partial sun, in well drained moist soil

Blooms from early summer well into fall

Color: magenta purple-pink flowers on tall, sturdy, reddish-purple stems.

This is a compact, early-flowering variety of our much larger classic summer flowering native perennial.

Great used as an accent, in a mass, native plant garden, rain garden, foundation planting, or cottage garden.

Cut back in fall or early spring to encourage healthy new growth the next season.

Attracts bees, butterflies and other pollinators

Deer and rabbit resistant

1 gallon pot

\$10.00

Lantana camara 'Pink Huff'

Height: 16-18" tall and 24-36" wide mounding perennial

Plant in well drained soil with at least 6 hours of full sun per day

Blooms from early summer to frost

Color: clusters of pink and yellow flowers attract butterflies and other pollinators

This is one of the hardiest Lantanas for our area

Cut back by 1/3 to 1/2 in early to midsummer and fertilize if flowering slows

Wait until new growth begins again in spring to cut back after winter to protect the crown

Mulch over winter will help ensure winter survival

Deer resistant, drought tolerant, generally pest free

1 gallon pot - \$10.00

Lavender, *Lavandula x intermedia* 'Phenomenal'

Height: 3 feet tall and wide, evergreen perennial

Plant in full sun in VERY well-draining soil with neutral pH (mix soil with small gravel, on a slight mound), and do not fertilize or overwater

Blooms in mid-summer until fall

Color: fragrant lavender flower spikes in summer, with fragrant gray-green foliage

This is one of the newest and most versatile lavenders, capable of thriving in dry, hot and cold climates, and notable for tolerating our southern humidity.

Lavender 'Phenomenal' fragrance is strongest and the flowering is most spectacular in the hottest and driest summers, and when the lavender is planted in nutrient poor soils.

'Phenomenal' can live up to 15 years with the proper care. Deadhead regularly to extend the flowering time.

Prune annually in late fall by no more than 1/3, removing flower spikes and shaping into a mound.

Plant each lavender 3 feet apart, or every 2 feet for full hedges.

Drought resistant, heat tolerant, tolerates some humidity, cold hardy, and tolerates freezing winter temperatures.

Deer resistant (this and rosemary are two of the best deer deterrents)

1 gallon pot

\$10.00

Rose Mallow, *Hibiscus* 'Midnight Marvel'

Height: 4-5 feet tall and wide perennial

Plant in well-drained moist acidic soil in full sun

Blooms from mid-summer through fall

Color: deep scarlet red flowers 8-9 inches across, with nearly black foliage

These North American native hybrids provide massive, tropical-looking flowers and a striking focal point to your late summer and fall garden.

Although later to emerge than most perennials in spring, these are fast growing plants capable of adding an inch of new growth a day.

Attracts butterflies, bees and hummingbirds

Deer resistant

Big 3 gallon plant

\$28.00

Russian sage, *Perovskia atriplicifolia* 'Blue Jean Baby'

Height: 2-3 feet tall and wide perennial

Plant in full sun, in average soil

Blooms from spring through fall

Color: spires of bright lavender blue flowers

Compact variety

Finely textured aromatic foliage is a complementary soft gray-green color

Deer resistant

Attracts hummingbirds and many pollinators

Don't overwater

1 gallon pot

\$10.00

Shasta daisy, *Leucanthemum x superbum* 'Snow Cap'

Height: 12-15 inches tall and wide perennial

Plant in full sun, in average soil

Blooms early summer into fall

Color: pure white petals with yellow center in abundance atop bushy mounds of dark green foliage

Deadhead regularly to encourage repeat blooming

Compact variety remains upright

Attracts butterflies and bees

An old fashioned cottage garden favorite

Tolerant of rabbits, deer and drought

1 gallon pot

\$10.00

Speedwell, Veronica 'Moody Blues Dark Pink'

Height: 12-14 inches tall and wide perennial

Plant in full sun, in well-drained average soil

Blooms from early spring through fall

Color: upright spires of dark pink blooms

Attracts hummingbirds, bees and other pollinators

Deer and rabbit resistant, drought and heat tolerant

Don't overwater

1 gallon pot

\$10.00

Stonecrop, Sedum spectabile 'Neon'

Height: 18-24 inches tall and wide

Plant in full sun, in well-drained average soil

Blooms in late summer through fall, when foliage turns a striking golden color

Color: flat clusters of rosy-magenta flowers that contrast with the fleshy light green summer foliage

Ideal for containers, rock gardens, and other hot dry spots

Flowers attract butterflies and bees

Rabbit resistant

1 gallon pot

\$10.00

Tickweed, Coreopsis 'Uptick Yellow and Red'

Height: 18-24 inches tall and wide

Plant in full sun, in average well-drained soil

Blooms continuously from early summer into fall

Color: sunny yellow flowers with dark red centers, atop a tidy mound of narrow, mid-green foliage

Easy to grow, disease resistant and heat tolerant

Attracts bees and butterflies

Deer resistant

Native cultivar

1 gallon pot

\$10.00

Verbena x 'Homestead Purple'

Plant in full sun in well-drained soil

Blooms late spring through fall

Color: clusters of rich, bright purple flowers over glossy green foliage

Drought and heat tolerant, resilient to most pests and diseases

Attractive as a ground cover, it is also perfect for containers and hanging baskets

Deer and drought resistant

Attracts butterflies

1 gallon pot

\$10.00

Verbena tall, Verbena bonariensis 'Lollipop'

Height: 2 feet tall and wide

Plant in full sun in well-drained soil

Blooms from early summer until first frost, very free flowering

Color: lavender-violet flower heads cover this compact plant

Useful in garden borders or in containers, also good as cut flowers

Tolerates extreme heat and humidity, and reseeds freely

Drought tolerant once established

Attracts butterflies, bees and hummingbirds

1 gallon pot

\$10.00

SHRUBS

Abelia 'Peach Perfection'

Height: 3-4 feet tall and wide flowering semi-evergreen shrub

Plant in full to part sun in well drained soil

Blooms all summer

Color: shades of orange and copper foliage mature to bright yellow and green on red stems, while clusters of white flowers darken to shades of pink

Requires very little care, has a natural compact rounded shape without pruning

Deer resistant

Attracts butterflies, bees and hummingbirds

1 gallon pot

\$12.00

Aucuba 'Picturata'

Height: 6-8 feet, broadleaved evergreen shrub

Plant in part to full shade, will tolerate morning sun

Grown for glossy variegated foliage

Color: dark green toothed leaves speckled with gold, no obvious flowers but females will set red berries

Wonderful to brighten a dark spot, loves acid soil

Deer resistant

1 gallon pot

\$12.00

Azalea native 'Spring Fanfare'

Height: 6-8 feet, deciduous flowering shrub

Plant in partial shade in moist, well-drained acid soil

Blooms in April-May

Color: large golden flowers with coral pink highlights

Attracts bees and butterflies, very fragrant

Native hybrid

Big 3 gallon plant

\$28.00

'Carolina Sapphire' Cypress, Cupressus

Height: 40-50 feet tall, 15-20 feet wide evergreen landscape tree

Plant in full sun to part sun

Used for a screening or specimen tree

Color: silvery teal blue foliage

Great tree for privacy screen or wind barrier, plant at least 7 feet apart. Beautiful silvery blue coloration year round. Branches are sturdy, but have a lacy appearance. Its aroma and color make it wonderful for use as holiday greenery.

Grows fast at 1-3 feet per year

Good choice for a windbreak or erosion control on hillsides

Drought tolerant

Withstands the heat and humidity of summer better than Leyland Cypress

Moderately deer resistant

1 gallon pot

\$10.00

Florida Anise, Illicium Floridanum'

Height: 7-8 feet tall, broadleaf evergreen shrub

Plant in partial shade

Blooms mid-spring

Color: small dark red flowers

Decorative seed pods similar to star anise but not edible

Leaves have anise scent when crushed

Native to Southeastern woodlands

Attracts butterflies and bees

Deer resistant

1 gallon pot

\$10.00

Forsythia 'Spring Glory'

Height: 6-9 feet flowering deciduous shrub

Plant in full sun to partial shade

Blooms late winter to early spring

Color: brilliant golden flowers emerge before leaves

Harbinger of spring, flowers on arching branches brighten the landscape when very little is in bloom

Does not require pruning, but benefits from it periodically to rejuvenate the plant

Cut long branches in bud stage for forcing into flower inside in late winter

Attracts early butterflies and bees

Deer resistant

1 gallon pot

\$10.00

Gardenia 'Frostproof'

Height: 3-4 feet tall, 5-6 feet wide evergreen shrub

Plant in full to part sun in well-drained soil

Blooms in spring through summer

Color: creamy 2-3 inch fragrant white blooms over shiny dark green foliage

Most tolerant of all gardenias to frost

Also tolerates heat and humidity

Deer resistant

1 gallon pot

\$10.00

Paper Bush, *Edgeworthia chrysantha*

Height: 4-6 feet deciduous shrub

Plant in partial sun to light shade, sheltered from afternoon sun

Blooms late winter through early spring, followed by large palmate leaves

Color: clusters of very fragrant yellow flowers

Prefers moist, well-drained soil and regular watering first year

Beneficial nectar for early pollinators

Bark was once used to make paper

Deer resistant

1 gallon pot

\$14.00

Quince *Chaenomeles* 'Cameo'

Height: 3-4 feet tall, 5-6 feet wide deciduous shrub

Plant in full sun to partial shade

Blooms very early spring, beneficial for early pollinators

Color: coral apricot double flowers

Blooms on old wood, so avoid heavy pruning

Edible small yellow fruit attracts birds and wildlife, also makes a tasty preserve or jelly

Deer resistant

1 gallon pot

\$10.00

Tea Olive, *Osmanthus fragrans*

Height: 10-12 feet tall, 6-8 feet wide evergreen shrub

Plant in partial sun to shade, prefers afternoon shade

Blooms in spring and sporadically through fall

Color: tiny creamy flowers have a powerful apricot or jasmine-like fragrance that drifts through the garden

Not fussy about soil, even tolerates heavy clay

Can train as a small tree

Attracts butterflies and bees

Deer resistant

1 gallon pot

\$10.00

GROUND COVERS

Bugle weed, *Ajuga reptans* Chocolate Chip

Height: 4 inches, with 9 inch spread evergreen perennial

Plant in partial sun to full shade

Blooms in mid-spring

Color: bronzed dark green foliage, with bright blue bloom stalks in spring

Wonderful groundcover for between stones in paths or as erosion control on slopes

Blooms attract butterflies and hummingbirds

Deer and rabbit resistant

1 gallon pot

\$10.00

Thrift, Creeping Phlox *subulata* 'Candy Stripe'

Height: 6 inches, with 24 inch spread evergreen perennial

Plant in full to part sun

Blooms in spring, March through May

Color: white flowers with pink stripes form a mass over the needle-like dark green foliage

Popular perennial for rocky ledges and slopes, making thick mats

Deer resistant and drought tolerant

An old fashioned favorite, native hybrid

1 gallon pot

\$10.00

GRASSES

Grass Golden Variegated Sweetflag, *Acorus gramineus* 'Ogon'

Height: 12-18 inches tall and wide evergreen perennial grass

Plant in moist part shade to sun

Use to accent water features or ponds, or create a dense ground cover

Excellent filler in containers or urns

Spreads very slowly by rhizomes

Color: bright green and gold grasslike, narrow blades

Proven Winner

1 gallon pot

\$12.00

Grass Muhlenbergia capillaris 'Pink Muhly' Grass

Height: 2-3 feet tall and wide perennial grass

Plant in dry to medium moisture, well-drained soils in full sun to light shade

Blooms in fall with spectacular clouds of airy, open flower plumes up to 12" long floating above the grassy foliage. Tan seed plumes remain attractive in winter.

Color: flower plumes in pink to pinkish red

It is the fall flowering that most distinguishes this native grass.

Deer resistant

Drought tolerant

1 gallon pot

\$12.00
