
MIND SHIFT IMPACT

Experiential Transformation Program

March 18-24, 2019 - Ten Thousand Islands, Florida

“There is more in us than we know. If we are made to see it perhaps for the rest of our lives we will be unwilling to settle for less.”

Celebrated Educator [Kurt Hahn](#),
Founder of Outward Bound & father of experiential learning

Are you where you want to be in life, personally and professionally? Even if the answer is a hesitant yes, I invite you to enroll in this transformational program to MIND your choices, SHIFT your thinking and IMPACT your world by embracing an opportunity to re-discover your authentic self. The world needs us to live our lives to the fullest and to show each other possibilities beyond traditional ways of thinking and doing things. Doing so, will allow us to also experience new ways of being; thereby enhancing the collective human experience we call reality. This Mind Shift Impact transformational program is customized for each participant to explore new personal and professional possibilities. You will discover how to challenge yourself to transition from self-imposed physical, emotional and intellectual boundaries and limitations to more dynamic ways of thinking and being.

Program

Transformational Change during a Mind Shift Impact program happens in three experiential phases. Each phase builds upon the other using *Systems Dynamics, Futures Thinking, Experiential Learning* and *The Outdoors*. In the end, the process allows you to connect the dots and choose wisely among alternative futures that unfold throughout the program. The MSI - Ten Thousand Islands Program is designed as a week-long program, divided into three phases:

MIND

SHIFT

IMPACT

MIND your choices is phase one and entails a day-and-a-half *discovery* session in Miami, Florida to unleash those amazing *soft core skills* inside of you: leadership, resourcefulness, respect, teamwork and compassion. Let us show you how to tap into these innate human traits and raise your self-awareness in order to reconnect with others, with your surroundings and with yourself. During this phase will set the program groundwork and focus on developing objectives and deliverables for your transformational change program.

SHIFT your thinking is phase two and centers around a three-day outdoor challenge in the Everglades, Florida. Mental models and belief systems are the basis of our operating system. Let us help you transition from our everyday linear thinking to a more dynamic circular way of thinking which will help you amplify your long term vision. We will use the Everglades expedition as an outdoor lab where you will experience situations that will sharpen your *hard core skills* and improve your strategic thinking and overall decision making abilities.

IMPACT your world is phase three and requires a final day-and-a-half *strategic action* session in Miami, Florida. Action defines us, and it is important to understand that there is not one future to choose from but rather *alternative futures* and, our actions determine which one we experience. Let us share with you how to define your cone-of-possibilities, layout a personal and business strategy and reach your *preferred future*. We will work with you to overcome fears and find the courage to craft, communicate and deliver a powerful, effective and strategic call-to-action. It is all inside you, waiting to manifest.

“My experience with Mind Shift Impact was one of those which mark your life and add a piece to your wholeness.”

“I reached out to Eduardo through a dear friend and mentor and immediately felt drawn to his philosophical but practical way of approaching human relationships, conservation and unorthodox thinking. Mind Shift Impact helped to open my mind through deep understanding of myself, purpose and direction I should take.”

“Mind Shift Impact does not ‘do it for you’, Mind Shift Impact helps you find you”

Details

EXPEDITIONARY LEADER: [Eduardo Balarezo](#)

BUSINESS STRATEGIST: [Manuel Hinke](#)
