NITRO COFFEE

FOR THE WORKPLACE

CRAFT COLD BREW

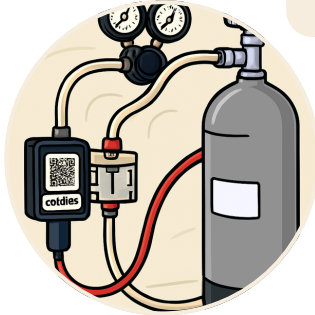

MODERN TECH

Austin ● Dallas ● San Antonio

HOW IT WORKS

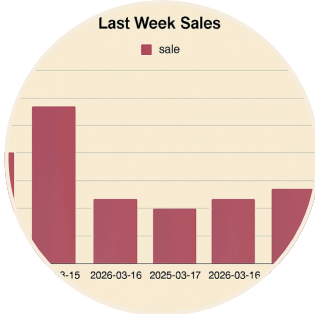

Coldies Smart Tap connects to your office Wi-Fi and we load it up with delicious cold brew coffee.

Employees start pouring and we track the keg levels remotely via our online platform.

When it runs low we automatically send our customer service team over to refill it.

We count the total ounces poured each month and you get a detailed invoice.
