

## Prisco® Green Clean

### Product Description:

Prisco Green Clean is a highly effective, non-flammable product that can be used to clean water-based Flexo inks and uncured Flexo UV inks. It does an excellent job of removing coatings and varnishes from a multitude of surfaces. Prisco Green Clean is also NSF certified and approved for use in facilities that require such certification for indirect food contact. NSF International is an accredited, independent third-party certification body that tests and certifies products to verify they meet public health and safety standards. Products that meet these standards bear the NSF mark.

### Advantages:

- Non-flammable
- Can be used in ultra-sonic cleaning machines or parts washers
- NSF Certified

### Directions:

This product is designed to be used at 100% strength by simply spraying onto the surface and wiping it clean. After using this product, it is recommended that you rinse with water. If cleaning a painted or varnished surface, pre-testing is recommended.
