

PRISCO® Silicone Emulsion Series (SES)

Product Description: PRISCO Silicone Emulsion (SES) is a highly effective slip agent which can be diluted with warm water for every press need. SES will prevent offsetting and streaking on turn-bars, former-boards and folders. This product is also useful in other operations such as folding, slitting and sheeting. SES prevents former board streaking on heat-set web presses. SES is suitable for roller or spray application. Some formulations are available with anti-static agents, additional anti-marking characteristics and superior retention on the web. In addition to traditional silicone formulas, we offer hybrid formulations which have the performance of traditional silicone emulsion while offering a lower cost of use.

Advantages:

- Eliminates smearing
- Reduced paper waste
- Reduces friction and static build-up on web applications
- Increases marking resistance and abrasion resistance

Product Code	Product Name	Anti-Stat Additive	Extra Anti-Marking	Dosing oz/gal	Special Characteristics
C673	SES 614	Yes	-	6 - 12	Hybrid, economical
C641	SES 817	Yes	-	4 - 8	High performance hybrid
C617	SES 817E	Yes	Yes	4 - 8	High performance hybrid
C640	SES 808	Yes	-	8 -16	Economical
C702	SES 2691	Yes	Yes	4 - 8	Very low dose, economical

Directions: Begin with recommended dilution of SES in water. Mix well in a plastic or lined metal container.

READ MSDS BEFORE USING THIS PRODUCT

Packaging: 55-Gallon (208 Liter) drum 275-Gallon (1041Liter) tote
