

PMX 2 HP pump featured with HLX strainer basket

PMX 2 HP pump features an On/Off switch

Columbia's PMX pump is a high output pump specifically for use with above-ground and on-ground swimming pools. Designed with performance and durability in mind, the PMX offers unmatched value. Ideally matched with a Columbia tank of the appropriate size, the PMX is also fully compatible with our competitors' systems and can function as an ideal replacement.

### Applications

- Above-ground/on-ground pools

### Pump Features

- On/Off switch standard on PMX pump
- Heavy-duty impeller for high output
- Pump mounted on platform standard
- Corrosion-proof housing for all-weather functionality
- Dual drain plugs for easy winterizing
- Each pump is individually tested to ensure leak-free functionality

The HLX strainer basket offers all the features one would require on a deluxe filtration system. As with the PMX, the HLX is fully compatible with our competitors' components.

### Strainer Basket Features

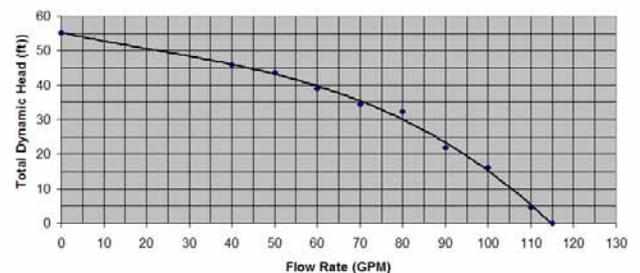

- High volume housing offers large leaf-holding capacity
- Clear lid eliminates emptying guesswork

## Specifications

### PMX Series

Model	Voltage	Connection Size	Carton Dims (in)	Carton Weight
PMX	115	1.5" NPT	15, 11, 9	21 lbs
HLX		1.5" NPT	12, 7, 7	3 lbs
