- “ I think about and use what I learned often! It is helpful as part of a team to think about how others process information and what works or doesn't work for other team members. It helps to make sure that we are an efficient, effective and supportive team and I really appreciate the way Emily talked us through the information and affirmed all of our strengths and gifts! -Meg
- “ The workshop increased vulnerability and cohesion amidst the group. I found it very revealing and insightful. -Alexandra
- “ Emily gives plenty of opportunity for us to share and is quite effective at helping us understand the Enneagram as well as ourselves through good questioning and explanation. The sessions were perfect in length. Overall, it was a great experience! -Jonathan
