AKÂRU' NEWS

www.pawneenationhousing.org**PLANNING & DEVELOPMENT**

The Pawnee Nation Housing Authority is pleased to announce the completion and formal adoption of the Strategic Housing, Land Acquisition, and Land Use Plan.

Developed through an approximately 18-month planning process, the Plan reflects input from the PNHA Board of Commissioners, Executive Director and staff, Pawnee Nation leadership, residents, Tribal citizens, community partners, technical professionals, and other stakeholders.

The Plan establishes a long-term framework for preserving existing housing, expanding rental and homeownership opportunities, preparing land and infrastructure for future development, strengthening partnerships, and responding to the changing housing needs of Pawnee families, elders, veterans, young people, and future generations.

PNHA REPP UPDATE

The Pawnee Nation Renewable Energy Pilot Program (REPP) continues to move forward as the project transitions from the design phase into procurement and construction preparation.

Project Coordination

Weekly REPP meetings continue with the project team to review progress, upcoming tasks, grant requirements, and project timelines. Coordination also continues between Pawnee Nation departments, Pawnee Nation Housing Authority, Stronghold Construction, and other project partners to make sure each part of the project is prepared for the next phase.

IEC Coordination & Council Resolution

A major step forward for the REPP project was recently completed when the Pawnee Nation Business Council passed

GOOD BYE MS. BETH!

Well, we just welcomed her to the team and now she has left us. We wish Ms. Elizabeth Fassnacht all the best in her new position with the City of Pawnee. She has taken the position of Deputy Clerk. Thank you for all your work you did for our tenants, Beth.

REPP CONTINUED, FRONT PAGE

the resolution approving the transition of the designated REPP project buildings to Indian Electric Cooperative (IEC) electrical service.

This transition will help support the planned solar and battery systems and allow the Nation to move forward with the necessary interconnection for the REPP project. The project team continues to coordinate with IEC regarding electrical service, solar interconnection, and integration of the renewable energy systems.

Site Plans Completed

Another major project milestone has been reached with the site plans now completed. The completed plans provide the layout and direction needed for the solar, battery storage, electrical, and supporting infrastructure included in the REPP project.

Moving Into Procurement

With the site planning and design work completed, the project is now moving into the procurement phase. The team is coordinating with Stronghold Construction and project partners to begin purchasing and organizing the remaining equipment and materials needed for construction.

Workforce Development – PV Associate Training

Workforce development remains an important part of the REPP project. A

HOUSING STAFF ACTIVITIES

BACK TO SCHOOL COOKOUT

The Housing Authority wants to wish all the school aged kids a wonderful school year! And thank you to the parents for sending us pictures of the kids in their new PNHA t-shirts. We hope they enjoyed the cookout food!

Below are some pictures of the event and of the kids in their new Housing t-shirts.

STAFF ATTEND TRAINING

Our staff have participated in virtual training sessions throughout the past month. The training covered Self-Monitoring, Executive Director responsibilities, and HUD Policies. Each of these areas is vital to the effective operations, compliance, and policies of the PNHA.

REPP UPDATE CONTINUED 3

PV Associate training class is scheduled to begin September 2, 2026, providing participants with hands-on education and training in solar photovoltaic (PV) technology.

The training will help participants build knowledge and skills in the growing solar energy industry while supporting the Nation's goal of developing a local workforce capable of participating in renewable energy projects.

Looking Ahead

The REPP project continues to make steady progress toward construction. Upcoming work will focus on procurement, IEC coordination and transition, construction preparation, workforce development, and continued coordination between Pawnee Nation departments and project partners.

Recent milestones—including the completion of the site plans, passage of the IEC resolution, and upcoming PV Associate training class—bring the REPP project another step closer to construction. The Pawnee Nation remains focused on reducing long-term energy costs, strengthening energy independence, creating workforce opportunities, and developing renewable energy infrastructure that will provide lasting benefits to the Nation and its community.

More information will be shared on the project in this newsletter and in the PN's Chaticks newsletter. If you have questions, please contact Kameron Brown, Energy Coord.

HOUSING STAFF ACTIVITIES

NATIONAL HOLIDAYS CELEBRATED

We hope that you all are having fun participating in the additional holidays we set up. Please keep up with the latest celebrations in each issue of the newsletter on the bottom of the calendar pages. Below are some pictures from the past few months activities.

INSPECTION TIME!

We are at the end of our fiscal year and will be doing inspections before the end of the month (September). Official notice will be sent out as soon as a date has been scheduled.

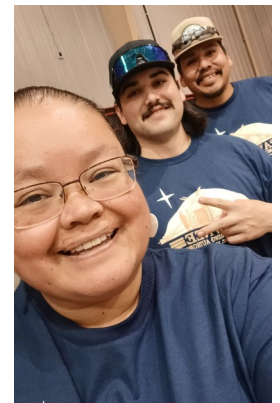

We will be sending a memo and the housekeeping checklist for things that will be inspected.

Should you have any questions, please let us know.

PNHA ATTENDS HEALTH FAIR

Our staff attended the Pawnee Nation Health Fair on July 1st. We passed out apples, oranges, bananas, water and REPP merchandise.

We hope all of our tenants had a great time during Homecoming and got lots of stuff you can use around the house from the Health Fair.

PNHA HIRING OFFICE ASSIST.

The Pawnee Nation Housing Authority is taking applications for the Office Assistant position. This is a Temporary Full-Time position that could lead into a permanent full-time position.

For more information please see our website where you can download the application and review the job description or come by our office to pick up an application. The deadline for applications will be September 11th by 3 pm.

PNHA ASSISTANCE PROGRAMS

We are at the end of our fiscal year for 2025-2026. The start of our new FY begins on October 1st. We do have a little funding left for this year, but will have additional funding as the new year begins.

FLUSHABLE WIPES

We have had many of our PNHA homes experience issues with their sewer lines these past few months. One of the main culprits has been "flushable wipes" and/or baby wipes being flushed down the toilets.

The Housing Authority asks that you please refrain from flushing anything down the toilet that is not toilet paper.

Toilet paper is designed to disintegrate in our pipes and sewage systems, but flushable wipes are not. They're typically made with synthetic materials, plastics or polyester, that won't break down. So even if they flush down your toilet, they end up clogging our sewers. This poses hazardous risks to sewage professionals and staff that must break these clogs up as well as considerable costs.

We have also had the issue of people flushing cigarette butts down the toilets as well. Just a reminder, we are a smoke free, drug free & weapon free community. Please, only flush toilet paper in the toilet bowls. Thank you!

PNHA COOKING CORNER

Fried Corn

Ingredients:

10 large cobs, fresh corn
1 stick butter
3 tablespoons canola oil
2 tablespoons sugar
1 teaspoon flour
1/2 cup milk
salt/pepper

Instructions:

1. in a large skillet, heat butter and oil over medium-high heat until hot.
2. in a bowl, shave the corn from the cobs with a sharp chef's knife. with the back of the knife, firmly scrape the cobs over the bowl to extract as much milk from the corn as possible. then add milk, flour, sugar, salt/pepper (to taste) to bowl and stir to combine. pour the corn mixture into the hot butter and oil in the skillet being careful not to splash yourself. cook, continually stirring until corn is tender, broken down and creamy, about 15 – 20 minutes.

Poor Man's Steak

Ingredients:

1 1/2 pounds ground beef (80-85% lean)
1 (10.5-ounce) can cream of mushroom soup
1/2 cup milk
1 (1-ounce) packet dry onion soup mix

Instructions:

- Preheat your oven to 350°F (175°C). Lightly grease a 9x13-inch baking dish
- Divide the ground beef into 4-6 equal portions, depending on how big you like your patties. Gently shape each portion into a flat patty about 1/2 to 3/4 inch thick. Try not to overwork the meat so it stays tender.
- Arrange the raw ground beef patties in a single layer in the prepared baking dish, leaving a little space between each one so the sauce can run around them.
- In a medium bowl, whisk together the cream of mushroom soup, milk, and dry onion soup mix until smooth and well combined.

- Pour the cream of mushroom mixture evenly over the raw ground beef patties in the baking dish, making sure each patty is coated and some sauce runs down around the sides.
- Cover the baking dish tightly with foil to keep the moisture in and help the patties cook through gently.
- Bake in the preheated oven for 35-45 minutes, or until the ground beef patties are cooked through (an internal temperature of 160°F/71°C) and the sauce is bubbling around the edges.
- Carefully remove the foil and let the dish rest for about 5 minutes so the sauce can settle and thicken slightly. Spoon the creamy mushroom and onion gravy over the tops of the patties when serving.

Hillbilly Pie

Ingredients:

1 stick 1/2 cup unsalted butter
1 cup self-rising flour
1 cup granulated sugar
1 cup milk
1 12 oz can fruit pie filling (cherry, apple, peach, or your favorite)

Instructions:

- Preheat oven to 350°F.
- Place butter in an 8x8 casserole dish and let it melt in the oven while preheating.
- In a bowl, whisk together flour, sugar, and milk until smooth.
- Remove dish from oven. Pour batter evenly over melted butter – do not stir.
- Spoon pie filling evenly over the batter.
- Bake for 30 minutes or until the crust is golden brown.
- Cool slightly before serving. Best served warm with ice cream or on its own.

NEWS AROUND THE COMMUNITY

ALLERGY SEASON, REMEDIES

In most regions, spring brings on a pollen assault to the nasal. For days, sometimes weeks, pollen fills the air and our sinuses deliver the message. Here are some home remedies for allergies and stuffed-up noses from the Book of Home Remedies, from the Old Farmer's Almanac.

What Causes Inflamed Sinuses?

Setting aside chronic illnesses, inflamed sinuses have a variety of causes, including infections (usually viral, but sometimes bacterial or fungal), allergies, environmental irritants, a deviated septum, nasal polyps, infected teeth, even stress.

Remedies for Sinus & Allergy Relief

Many simple, drug-free, self-care practices can help to relieve acutely or chronically inflamed sinuses:

- When you have a cold, stay well hydrated (drink lots of water or warm tea). Set an alarm to remind you to take a drink every hour.
- Don't put away the humidifier. Humidify the air in your home, and if you're really stuffy, try a good, old-fashioned steam. Prepare a pot of simmering water; then, while holding a towel over

your head, lean your head over the pot to catch the steam from it. You might also try a personal steam inhaler, available at pharmacies.

- Use a neti pot to irrigate your sinuses and nasal passages with a warm saline solution to clear dust, pollen, and excess mucus. If you try this ancient technique, it's especially important to use only boiled or sterile water in your pot.
- Before bed, put on a nasal strip. These Band-Aid-Like adhesives gently pull open the nasal passages to keep them open throughout the night.
- If allergies are causing sinus congestion, try allergy-proofing your home.

One Almanac reader suggested these unusual 60-second solutions for relief. Try them and see if they work for you!

- Press the tip of your tongue to the top of your mouth. Release your tongue, then press on your forehead between your eyebrows. Repeat both steps, pressing your tongue and tapping your forehead for about 20 seconds. This could help relieve some congestion.

If in doubt, go to the doctor.
