WELCOME FROM THE EXECUTIVE DIRECTOR

We want to welcome our new tenants here at the Housing Authority. Welcome to the Housing Community!

There needs to be some reminders about the Pet Policy. We have had several tenants who have not reported your pets or paid the required \$200 pet fee. If you have received a letter from our Compliance Office, please come by the office and get your account taken care of as soon as you can. By not complying with our Pet Policy, it is a violation of your lease agreement and could be cause of termination of the lease.

We are looking forward to the holiday season vastly approaching and will be planning some get togethers for the tenants.

PROJECT MANAGER UPDATE

We wanted to report to our tenants that Mr. George Gardipe has departed employment from the Housing Authority. His last day in the office was August 15.

We will advertising for this position soon in hopes to find someone to carryout the upcoming project planning duties for the Housing Authority.

Thank you, Mr. Gardipe, for your years of service to the Pawnee Nation Housing Authority Community and we wish you the best of luck on your future endeavors.

CONGRATULATIONS

We are very proud to CONGRATULATE one of our current Commissioners, Ms. Suzy Knife Chief and our past PNHA Commissioner and Resident, Mr. Robert Ankney on their education accomplishments. Both are members of the Pawnee Nation and huge supporters of education and our youth.

Ms. Suzy Knife Chief graduated this summer with her Masters Degree in Education - Organizational Leadership from Northcentral University in San Diego, California. Ms. Knife Chief has worked in the educational field for many years. "I encourage education because it empowers us with knowledge, it develops our strengths, and builds our character. We, as Pawnees, should uplift and support each other to reach our potential." says Ms. Knife Chief.

Pictured on the right with her proud children Montana, Jonathan, Blake and Randall.

Mr. Robert Ankney graduated with his Masters Degree in Sport Administration from Arkansas State University.

He made an expression via Facebook, Robert said, "Someday, I'll hear my daughter's name called. Then, our son's name and Lord willing, I'll hear my grandchildren's names called. And instead of my family having a few college graduates, there will be many. That is what I'm eager to witness. That's the legacy I strive to leave."

Pictured on the right, Mr. Ankney with his proud family, wife Nicole, daughter Plio, and son Rylin.

EMPLOYEE SPOTLIGHT

Our employee spotlight for this edition is our Compliance Specialist, Ms. Cynthia Butler. Ms. Butler has been with the Housing Authority for three (3) years. She starting working with the Emergency Rental Assistance Program (ERAP) and later was hired on by the Housing Authority in the Compliance Office. She helps in updating policies, applications, and she fills in where needed.

Ms. Butler is a graduate of Northern Oklahoma College with her Associates degree in Business Administration and from Oklahoma State University with her Bachelors in Business Administration, with a minor in Entrepreneurship. Currently she is seated in her second (2nd) term on the Pawnee Business Council where she is involved in many committees such as the Governing Documents Committee, Tourism Committee and Planning Committee, including other Committees in the Community. Ms. Butler also serves as President of the Pawnee Chamber of Commerce. She is always busy attending events in the community and around the Pawnee Nation.

She has lived here in Pawnee for most of her life where she has raised her son Aiden.

Welcome to the Housing Team. We are happy you are part of the Housing community and proud of your work you are doing around the community.

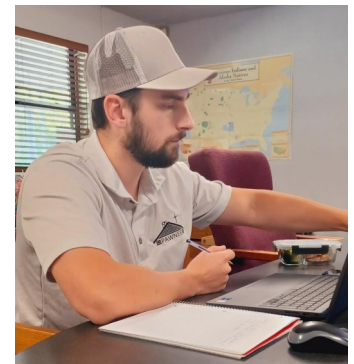

HOUSING STAFF ACTIVITIES

The REPP Energy Coordinator is back in the office. Mr. Alex McSheridan has still been busy in phase II of the project continuing with work on community engagement and signing individuals up for the sensor and smart thermostats.

Here is an update from Mr. McSheridan: I know it has been a while since you had an update from the Rural Energy Pilot Program and your sensors and thermostats. We've been busy and thank you for your patience! We have not forgotten about you, just working out the final kinks in regard to the marriage of the sensors and thermostats. We will be doing a pilot trial with 10 sensors and thermostats within the next 30 days, making sure everything is operating and connecting flawlessly, and then within the next 60 to 120 days roll out everyone else's sensors and thermostats!

We are still looking for people to sign up for this program. Again, this program is 100% free, can help you identify where your electricity is going, can assist in controlling temperature within your residence and helps us greatly with future weatherization efforts around Pawnee. So, if you know anybody that might be interested in potentially saving money, send them our way! Thank you again for your patience, I know it has taken a while, but we are going to deliver everything to make it as painless as possible.

ONAP TRAINING

Our PNHA Staff attended the HUD's Office of Native American Programs (ONAP) Financial Training in Oklahoma City for a two day in-person meeting in August.

The training covered Uniform Guidance (2 CFR Part 200) and how it applies to NAHASDA; standards in Financial Management; Overview of NAHASDA and IHBG; Procedures for Allowable Costs; Budgeting; Accessing IHBG Grant Funds; Basics of Government Accounting and IHBG funds; Accounting Systems & Internal Controls; and Reporting & Monitoring.

HOUSING STAFF ACTIVITIES

MAINTENANCE ACTIVITIES

The maintenance staff have been busy getting housing ready for new tenants. Currently our staff are working on home renovations at 5 of our properties and we have a contractor working on 2 of the homes.

We have recently purchased a non-NAHASDA Lease Purchase Home at 307 Ash. This home has being fully renovated and now we are just waiting to put a new roof on it. The Commission has approved for this to be the first non-NAHASDA Lease Purchase home and we will be working on the policy and then get the home ready for Homeownership.

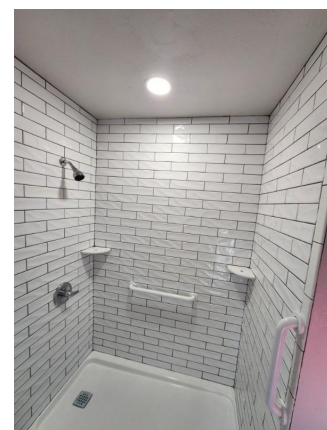

There are two (2) non-NASHASDA homes that are also being cleaned and rehabbed at 122 Yellowhorse Drive and at 219 Park Lane.

Our staff will be starting on a few more rehabs here at Littlesun Addition. They will be starting on Units 106, 113 and 116. These units will be getting a face lift and new appliances to get ready for new tenants to move-in.

Work has begun with clean up the apartment on 403 Forest Street. There was some foundation work needing to be done which has started and there was removal of the carpet in the home.

Staff has also been mowing grass. We are almost done with mowing season and want to thank all of our tenants for helping to keep the grounds looking nice and picking up debris.

To the right are pics of 307 Ash Street >

We hope that they were able to use the items and enjoy the goodies that were given out. We appreciate our elder community here at the Housing Authority and wanted to show that appreciation with a small gift.

TALK ABOUT BED BUGS

What Are Bedbugs?

Bedbugs are insects that feed on the blood of animals and humans. Adult bedbugs are reddish-brown, wingless, and about the size of an apple seed. They are flat with oval-shaped bodies. Young bedbugs, or nymphs, are smaller and can appear translucent or yellowish in color. If nymphs have not been recently fed, due to their coloring, they can be almost impossible to spot. Bedbug eggs are tiny and white.

How big are bedbugs?

An adult bedbug is roughly 5 to 7 millimeters long or about the size of Abraham Lincoln's head on a penny.

Where are bedbugs found?

Bedbugs are found all over the world. While you may think of bedbugs as a problem in only developing parts of the world, you can find bed bugs in the U.S., Canada, and the U.K. as well as Asia, Africa, and South America. Bedbugs can make their way just about anywhere.

What Do Bedbugs Look Like?

Adult bedbugs have flat bodies about the size of an apple seed. After feeding, though, they swell and turn a reddish color.

Their flattened bodies make it possible for them to fit into tiny spaces, about the thickness of a credit card. This means they can get just about anywhere so long as there's blood to feed on.

Bed bugs don't make nests like ants or bees but tend to live in groups in hiding places. They don't fly, but they can move quickly over floors, walls, and ceilings.

What Causes Bedbugs?

Bedbugs usually get into your home from another place that's infested with them. If you live in an apartment or condominium, they can travel from another unit in your building. They might hitch a ride on used upholstered furniture. Or you could carry them in on luggage or a purse that you set down in a place that has bedbugs.

HOUSING AUTHORITY NEWS

BED BUGS, CON'T

Early Signs of Bedbugs

The first sign of bedbugs may be small, itchy bites on your skin, often on your arms or shoulders. Bedbugs tend to leave clusters of bites rather than single bites here and there. But for some people, bed bug bites don't cause any marks or itching.

You might also notice:

- ⇒ Blood spots on your sheets or mattress
- ⇒ Tiny pale yellow eggs or eggshells
- ⇒ Bedbug poop, black dots about the size of a period
- ⇒ The bedbugs' shed skin, which looks a lot like the bugs themselves
- ⇒ White, oval eggs that are about as big as an apple seed
- ⇒ A sweet, musty odor around your bed
- ⇒ Actual bedbugs in your bed

How to Get Rid of Bedbugs

To get rid of bedbugs, you can start by taking some steps at home:

- ⇒ Wash your bedding, curtains, and clothing in hot water and dry them on the highest dryer setting. Put stuffed animals, shoes, and other items that can't be washed in the dryer and run it on high for 30 minutes or more.
- ⇒ Use a stiff brush to scrub mattress seams to remove bed bugs and their eggs before vacuuming.
- ⇒ Vacuum your bed and the area around it every day, including windows and molding. Afterward, put the vacuum cleaner bag in a plastic bag and place it in the garbage outdoors right away.
- ⇒ Put a tightly woven, zippered cover on your mattress and box springs to keep bed bugs from entering or escaping. Bedbugs can live several months without feeding. So keep the cover on your mattress for at least a year.
- ⇒ Repair cracks in plaster and glue down peeling wallpaper to get rid of places bedbugs can hide.

- ⇒ Get rid of clutter around your bed, and move your bed away from your walls and other furniture.
- ⇒ If you live in a hot place, you can place your things in an enclosed bag and leave them in your car to bake in the sun. The target temperature is at least 120 F.

Reporting Bedbugs to the Housing Office

If you see any of the signs of bedbugs, please let the Housing Office know immediately so we may assess the type of treatment needed to help get rid of these pesky bugs.

If your mattress is infested, you may want to get a new one. But first, take the precautions for the rest of your home so the bugs won't get into your new mattress.

How to Prevent Bedbugs

A few ways to stop bedbugs (and bedbug bites) include:

- ⇒ Use a protective cover on your mattress and box springs. Check it regularly for holes.
- ⇒ Reduce clutter in your bedroom so bedbugs don't have many places to hide.
- ⇒ Vacuum regularly, including your mattress, carpet, curtains, and upholstered furniture.
- ⇒ When you stay away from home, put your bag on a suitcase stand, dresser, or table rather than on the bed or floor. When you get home, wash all the clothes from your trip and dry them in a hot dryer.
- ⇒ Wear pajamas with long sleeves and long pants to protect your skin from bites.
- ⇒ Carefully inspect used upholstered furniture before bringing it inside.
- ⇒ Avoid used mattresses and bedding.

PNHA COOKING CORNER

CHICKEN SPEGHETTI WITH ROTEL AND VELVEETA

This recipe is incredibly easy to make.
Here is what you need:

- ♦ Spaghetti
- ♦ Cooked chicken
- ♦ 1 pound Velveeta
- ♦ 1 can Rotel, canned tomatoes with green chiles
- ♦ 1 can Cream of Chicken or Cream of Mushroom soup
- ♦ 1 teaspoon pepper
- ♦ 1 Cup Chicken broth
- ♦ 4 oz Cream Cheese
- ♦ Cheddar Cheese (optional for topping)
- ♦ Green onions (optional for topping)

Pasta: the key to the pasta turning out perfect for Chicken Spaghetti is to not overcook the pasta. You want it to be “al dente” which means still slightly firm when you take a bite, but not hard. Cook pasta in a medium sized saucepan in boiling water. Add a teaspoon of salt. Set the timer for 8-9 minutes.

Cheese sauce: Combine the Velveeta, rotel, Cream Cheese, Cream of Chicken Soup, chicken broth, and pepper in a large sauce pan on the stove. Heat to medium-low until all the ingredients have melted together.

Baking: Preheat oven to 350 degrees F. Spray a 13x9 baking dish, or grease with shortening. Spread the ingredients from the saucepan (the cheese sauce with the cooked spaghetti and chicken) into the dish and bake uncovered for 40 minutes.

REFRIGERATOR JAM

Sugar Free

- 1 1/3 cup strawberries
- 2/3 cup rhubarb
- 1 tsp fresh lemon juice
- 2 Tbsp raw honey (or to taste)
- 2 Tbsp chia seeds

Process all ingredients in a blender and refrigerate overnight. The chia seeds will gel, thickening the fruit puree.

Add additional diced fruit if you like it chunky.

Refrigerate for up to a week or freeze up to 3 months.

Types of Fires

Class A (plastic, paper, wood, and fabric) extinguish with water

Class C (electrical components) extinguish by cutting power, use fire extinguisher

Tips for creating your home fire escape plan and practicing your 2-minute drill:

- Everyone in your household should know two ways to escape from each room in your home.
 - Smoke is dangerous. Get low and go!
 - Decide where to meet once you get outside:
-
- Get out and stay out. Never go back inside for people, pets or things.
 - If a fire starts, you may have less than **two minutes** to get to safety. So time your fire drills and find out: what's your escape time?
