

HOT WORK OPERATIONAL PLAN

Commercial and residential "hot work" applications such as;

- Welding, or the use of "gas" powered equipment designed for the purpose of thinning and or maintaining property or equipment ie;
 - Portable or fixed welders, lawnmowers, chainsaws, weed-eaters, generators, power washers etc.

In this Plan, you are required to have the following in place at all times:

1. Well maintained equipment with a proper muffler w/spark arrestor, and operator to don all proper safety equipment.
2. Work only to be done in previously "maintained/landscaped" area, no unoccupied or not previously maintained landscapes or open lots.
3. Trees and brush included in this work has to be cleared of all flammable material to barren earth, for a minimum of a 10 ft diameter circle i.e. pine needles, brush, twigs, debris etc
4. A means of extinguishment must be within "ready reach" at all times during activity, (extinguisher, charged water hose line, etc.)
5. A Fire Watch is required, if work is in what would be considered, a large area or operator is not in a position to have a 360° view at all times.
6. This permit shall not be construed to relieve you from liability from resulting damages or the obligation to comply with other applicable laws, regulations, or ordinances. You must also comply with related requirements of the Arizona Revised Statutes (ARS) and any local Navajo County Ordinances. You can and will be responsible for any and all costs of suppression for failure to comply to any of the above and also may be subject to criminal citation by a law enforcement official.
