

Welcome!

Selling your home is a big decision — whether you're relocating, downsizing, or facing financial challenges. I'm Jack Conde, a New Jersey real estate professional with over 20 years of experience helping homeowners like you sell confidently and successfully. This guide is designed to walk you through the process and help you get the best results.

Let's dive in.

Top 5 Reasons NJ Homeowners Sell

1. **Relocation** \ New job? New start? Moving to a new city or state is one of the most common reasons for selling.
 2. **Financial Hardship** \ Falling behind on mortgage or taxes? You may have options before foreclosure. Selling smart can protect your equity.
 3. **Divorce or Separation** \ When it's time to move on, handling the home fairly and quickly becomes essential.
 4. **Downsizing or Upsizing** \ Life changes, and so do your space needs. Whether you're empty-nesting or growing, it may be time for a change.
 5. **Inherited Property** \ You may have inherited a home you don't plan to keep. Selling it quickly and properly can reduce stress and taxes.
-

What You Need to Know Before Listing

- **Understand Market Trends** \ Know the current value of homes in your area, especially those in similar condition.
 - **Choose the Right Pricing Strategy** \ Overpricing scares away buyers. Proper pricing can trigger bidding wars.
 - **Prep Your Home** \ A clean, well-staged home attracts higher offers. Focus on curb appeal, paint, and clutter removal.
 - **Gather Paperwork** \ Start collecting your deed, past utility bills, mortgage info, and tax records now.

 2. **Home Preparation**\ Minor repairs, cleaning, staging, photos — I help guide and manage this.
 3. **Marketing & Listing**\ Your home goes on the MLS, Zillow, Facebook, Google, and more.
 4. **Showings & Offers**\ I coordinate buyer appointments, screen offers and negotiate on your behalf.
 5. **Closing the Sale**\ From inspections to paperwork, I handle the details so you can focus on moving forward.
-

Avoid These Common Mistakes

- **Overpricing**\ Homes that sit on the market too long often sell for less than market value.
 - **Neglecting Staging**\ Buyers shop with their eyes. A great first impression is priceless.
 - **Ignoring Needed Repairs**\ Small issues can turn buyers off or lead to lost deals after inspection.
 - **Not Asking for Help Early**\ The sooner we talk, the more I can help protect your interests.
