

## MATTED PET RELEASE FORM

### Humanity over Vanity

The goal is to have a stress free, comfortable grooming experience. If the dog is matted beyond brushing then it becomes necessary to remove the coat. Mats can create multiple problems or release underlying issues. This can cause skin pulling and prevents the skin from circulating air, harboring fleas and ticks, among other things.

Once the coat is removed, the dog may feel different and that causes them to lick or shake. Repeated licking can cause hot spots and removing ear mats can result in excessive head shaking, causing hematomas.

Removing mats is time consuming and highly sensitive to the skin. We always do our best, but the outcome is unpredictable as is the price. The price will not be determined until after the groom, but there will be a coat removal/demattting fee.

***I have read and understand the above. I am aware that the condition of the coat may result in a cut shorter than I wish. I also understand this could result in a trip to the veterinarian and that I am responsible for those costs.***

### Senior Dog Release

Again, safety is our #1 priority. When a dog has reached their senior years, regardless of grooming experience, it can become a stressful situation. This stress can expose medical issues (for example: anxiety, seizures, heart conditions, etc.) or aggravate a current condition. Please understand that we may stop the groom at any time to prevent a medical emergency or seek medical attention.

***I understand that grooming a senior dog is unpredictable, risky and very serious. I trust and approve Rebel Pet, LLC. to seek medical attention at my expense. Rebel Pet, LLC. will not be liable for any loss, damage or claims due to the direct or indirect result of grooming my senior pet.***
