FLOAT THERAPY

You will effortlessly float for 1 hour, allowing the quietness you need to unplug from an overstimulated world.

MASSAGE CHAIRS

Our Brio uses an "L-Track" design that mimics your body's shape to provide a full body massage from the neck through the glutes. Our Brio Sport has additional features such as a "Hot Rocks" style pinpoint heat application as well as focused sessions that target the neck and shoulders, lower back, or glutes and IT bands.

WELLNESS COCOON

This full body service utilizes infrared heat, vibratory massage and pink Himalayan salt. By increasing circulation, any damaged or stiff muscles receive the oxygen filled blood needed to begin the body's healing process.

PAIN LIGHT

This light will increase your body's circulation, accelerating its natural recovery process to help temporarily relieving minor muscle and joint pain.

HALOTHERAPY

Halotherapy is an alternative treatment for respiratory and skin conditions that involves breathing in salty air created by a halogenerator. Focus on your breathing as you relax or mediate during your 30 minute session.

RED LIGHT THERAPY

Red light therapy is a restoring light that stimulates down to the bottom layer of the skin's dermis. This helps boost the production of collagen and reduces inflammation.

SAVE A WARRIOR

WE CAME BACK FOR YOU

OUR MISSION

Save A Warrior is committed to ending the staggering suicide rate plaguing our Veteran, Active-Duty Military, and First Responder communities.

PROGRAMMING

Through our peer-to-peer programming, Save A Warrior works to help our nation's heroes heal their deep wounds from Complex Post-Traumatic Stress. Our 72 hour intensive integrative experience is the original, Warrior-led solution to the suicide epidemic among these communities. Warriors leave our 72-hour program with the pathway laid for a new way of life, and an entire community of support through our alumni network.

COMPLEX PTS

For those suffering from Complex Post-Traumatic Stress, everyday interactions and situations that are otherwise normal and safe can elicit significant emotional responses, triggering extreme fear and anxiety. Save A Warrior works to help our Warriors heal their limbic system and work through their traumas using Warrior Meditation and various other forms of C-PTS biopsychosocial/spiritual education through our peer-led program.

TESTIMONIAL

"Save A Warrior ended the lifelong nightmare I was in with Complex Post-Traumatic Stress. I changed from hating myself, to feeling like one of the most blessed people on the planet. I wasn't even aware that I couldn't feel things like love and happiness before. Save A Warrior is the best thing that I have experienced in life. It changed my way of being and my life from something I hated, to something I now enjoy."

-Larry Turner, Cohort 058

ABOUT SAVE A WARRIOR™

Save A Warrior was founded in 2012 in Malibu, CA, by Ronald "Jake" Clark, a U.S. Army Veteran and former LAPD Police Officer, Secret Service, and FBI Special Agent.

SAW's Mission: To end the suicide epidemic among our Veterans, Active-Duty Military, and First Responders.

Through partnerships with clinicians and holistic health providers alike, a novel and carefully curated intensive integrative model was developed that is fast-becoming the gold standard in accelerated healing for Complex Post-Traumatic Stress (C-PTS).

HOW TO APPLY

- ◆ Visit our website (www.saveawarrior.org) and click on the "Apply" page at the top, under "Our Program."
- ◆ Begin the application process and fill out the application as honestly as possible.
- ◆ You will be directed to schedule a rostering call to determine if SAW is a good fit for what you are struggling with.
- ◆ If SAW is a good fit for your journey, you will be scheduled for a Cohort during your call. Otherwise, our team will work to connect you with other available resources.

BROTHERS IN HEALING

Chris Sutherland: Chris has worked in full time law enforcement for 20 yrs. He served as a State Trooper, School Resource Officer, Patrol Officer, Field Training Officer & on his department's SWAT team.

Jeremy Wood: Jeremy has worked for 22 years In Law Enforcement. He served as a School Resource Officer, Major Crimes Detective, Undercover Narcotics Detective, Field Training Officer, Defense Tactics Instructor & served on the department's SWAT team for 12 years.

Both Chris & Jeremy completed treatment for their own struggles with PTSD. As Ret. LE Officers, they are committed to breaking the mental health stigma by sharing their personal experiences & letting others know that they are not alone, that professional help is available. They speak across the US, educating others about PTSD & inspiring those suffering to seek treatment. Brothers In Healing believes that together as a family we are stronger.

Together, Chris & Jeremy cofounded the organization *Brothers In Healing LLC* & the 501c3 Non-Profit *Bigger Than Us*. Their focus is on reducing the growing trend of First Responder suicide & helping others heal.

They offer financial scholarships to those seeking PTSD related treatments & training.

More First Responders die by suicide than by in the line of duty deaths... PTSD is real, let's do something together to changed this!

www.BrothersinHealing.com

"I admire and respect these guys for what they were able to do in the face of disaster, the pieces of themselves those incidents took or tried to take, their fight to stay whole, and their emphatic willingness to help others grow stronger from their experiences!"
~ First Responder

"You're either in a storm, coming out of one, or heading into one!" - Les Brown

THE PREMIERE HOLISTIC CENTER FOR CHRONIC PAIN

INDIVIDUALIZED TREATMENT TO MEET YOUR NEEDS AND GOALS

Holistic Centered Treatment takes a new look at chronic pain. The days of just treating the symptoms are over. Chronic pain conditions are complex diagnoses that can lead to uncertainty and suffering for millions of people around the globe. Our individualized treatment will help you go from merely surviving to thriving.

Our approach is scientifically designed. We take a whole-body approach - working with the biology and physiology of the body. Utilizing the newest medical technology and layering in holistic treatments - you can regain function and reach your goals.

Hearts to Horses LLC

Equine Assisted Psychotherapy

Let Horses Lead You to a Better Way

Equine Assisted Psychotherapy creates real opportunities for honest feedback in real time, helping you uncover problems and find real solutions so you can experience life in a whole new way.

Engaging, Active, Effective.

Equine Assisted Psychotherapy gives families, groups and individuals of any age the chance to get to the root of their problems, find better ways to communicate, build healthier relationships, and return to a healthy happy lifestyle.

For Any Problem

Equine Assisted Psychotherapy is an increasingly popular method of treating addictions, trauma, social and behavioral disorders, depression, anxiety, life transitions, our ever changing world and more. Clients have reported that they have been able to change and grow more effectively and quickly than through traditional approaches.

NAMI Idaho provides trainings and resources to help first responders in their professions as well in maintaining personal mental wellness. Learn more at namiidaho.org/cit.

Throughout the country, people with mental illness are overrepresented in our nation's jails and prisons. We are here as a resource for support, in the field, in the community and throughout Idaho, unclogging the justice system with people who struggle with mental illness.

About **2 million** times each year, people with serious mental illness are booked into jails.

About **2 in 5** people who are incarcerated have a **history of mental illness** (37% in state and federal prisons and 44% held in local jails).

66% of women in prison reported having a history of mental illness, **almost twice the percentage of men** in prison.

Nearly **1 in 4** people shot and killed by police officers between 2015–2020 had a mental health condition.

Suicide is the **leading cause of death** for people held in local jails.

An estimated **4,000** people with serious mental illness are held in solitary confinement inside U.S. prisons.

COMMUNITIES

70% of youth in the juvenile justice system have a diagnosable mental health condition.

Youth in detention are **10x more likely** to suffer from psychosis than youth in the community.

YOUTH

About **50,000 veterans** are held in local jails — 55% report experiencing mental illness.

VETERANS

Among incarcerated people with a mental health condition, **non-white individuals** are more likely to be held in solitary confinement, be injured and **stay longer in jail**.

PEOPLE OF COLOR

ACCESS TO CARE

About **3 in 5** people (63%) with a history of mental illness do not receive mental health treatment while incarcerated in state and federal prisons.

45% Less than half of people with a history of mental illness **receive mental health treatment** while held in local jails.

People who **have health care coverage** upon release from incarceration are more likely to **engage in services that reduce recidivism**.

Data from the U.S. Department of Justice and other select sources. Find citations for this resource at nami.org/mhstats.

IDAHO

FRATERNAL ORDER OF
POLICE

www.FOPIdaho.com

 Facebook.com/IdahoStateFOP

The Idaho Fraternal Order of Police (FOP), at over 2400 members in 30 local lodges statewide, is the largest organization of Law Enforcement Professionals in Idaho, dedicated to the safety and protection of those whose job it is to protect the communities they serve.

Visit our website and follow us on Facebook to learn more about the many benefits of the FOP how to **BECOME A MEMBER:**

www.FOPIdaho.com

THE VOICE OF IDAHO'S LAW ENFORCEMENT

MEMBER BENEFITS

- Legal Defense— Insurance Discounts
- NFOP University—Free College Benefit
- Financial Services—Planning
- Health and Wellness Resources

OFFICER WELLNESS

We take officer wellness seriously. Visit the National FOP Officer Wellness page for crisis hotlines, resources, training, webinars, and a list of vetted wellness providers who understand Law Enforcement and can help you, your family, or your co-workers.

**NEVER BE AFRAID TO REACH OUT
FOR HELP**

www.FOP.net/officer-wellness

The Idaho FOP is proud to partner with **Courageous Survival**, connecting Idaho's First Responders and their families with resources for mental health and wellness.

Donations collected through the Idaho FOP Foundation go toward these efforts along with emergency officer & family assistance, disabled, injured, or fallen officers, scholarships, and various charity projects supported by the Idaho FOP.

Show your support by donating to the Idaho FOP Foundation:

Building on a Proud Tradition

COMMIT TO LIFE. BE A SAFE CONNECTION.

QPR SUICIDE PREVENTION TRAINING

99%

of trainees say they are more likely to help someone after completing a QPR training provided by Center for Hope

Learn more about QPR: <https://qprinstitute.com>

90 MINUTES. CHOOSE LIFE. BE PART OF THE SOLUTION.

Every **21 hours**, someone in Idaho dies by suicide.

- 2nd** leading cause of death ages **10-34**
- 3rd** leading cause of death ages **35-44**
- 4th** leading cause of death ages **45-54**

- Would you recognize signs?
- Would you ask about suicide?
- Would you refer to help?

American Foundation for Suicide Prevention 2020 stats sheet

"I had a friend complete suicide in 2018. He was an amazing, kind-hearted, brave, successful person. A week before he died, there was a big sign that I missed. I know I don't carry his decision, however, I wish I would have been more aware of his indirect signal."

TRAINING FUNDED BY

OPTUM®

THANK YOU!

www.Code3to1.com

Code 3 to 1 is a Fraternal Club for retired law enforcement personnel living in Idaho. We exist to bring the camaraderie we all enjoyed while working the beat. Our members are retired police officers, federal agents, civilian employees, and fire fighters. Our only requirement is that you have been honorably retired from your agency.

The Power of the Breath

Learn to be “Present” & Just Breathe

Struggling with anxiety, fear, depression, insomnia, chronic pain, post-traumatic stress injury or PTSD?

Learn an incredible Breathwork exercise/tool that you can use to regulate or reset your autonomic nervous system.

Diaphragmatic Breathing Exercises & Mindfulness (DBEM):

[Beginning Breathing-\(1 Session\)](#)

[Intermediate Breathing—\(2 Sessions\)](#)

[Advanced Breathing-\(3 Sessions\)](#)

*Use QR code or go to Elevate Mind Body Studio’s YouTube Channel or Courageous Survival website to access sessions

Featuring Breathwork Instructor, Equine Specialist, Veteran, Founder & Director of the Intensive Healing Therapy Program, “Cowboy Buddha” Johnny Urrutia.

Breathwork is more than an exercise of breathing correctly or with intent. Breathing techniques are tools for major transformation and healing. Post-traumatic Stress Injury or Post-traumatic Stress Disorder (PTSD) & depression live in the past. Fear & Anxiety live in the future. You can’t breathe in the past or the future, you can only breathe in the present. You can practice being “Present” by harnessing the power of the breath, therefore learning to manage the stressors in your life.

www.IntensiveHealingTherapy.com

www.CourageousSurvival.org

Intensive Outpatient Program

Intensive Healing Therapy offers multi-modality treatment programs that are individually-tailored to your needs. The IHT Method is trauma-informed, active, integrative, non-medicated, solution-based, and your experience is built specifically around enabling positive changes in your life. If you have struggled with anxiety, depression, PTSD or other trauma-related challenges, we can help.

Shelly's story...

I shot myself in the head today. It started the same as any other day. I got up, helped my son get ready for school, gave him a hug, sent him off with his dad, got back in bed and shot myself in the head. It was several different times in several different settings. My depression is forcing me to watch a video on repeat of me killing myself!

Those are the words I wrote to express exactly how I was feeling and what I was thinking before discovering and connecting with the IHT team. Being raised by a drug addict mother, child molesting drug addict stepfather and an alcoholic father with undiagnosed PTSD I never knew the things I encountered from that life were causing trauma. I continued into my adulthood with all my unhealed wounds and added to the list of traumas in a very abusive marriage. I had been in talk therapy on and off my whole life with little to no relief from my severe anxiety and PTSD symptoms. As a matter of fact, my symptoms were getting worse with cognitive behavioral talk therapy. I was essentially opening pandoras box in every session and then leaving the therapist office with no tools on how to deal with all those emotions. In my mind IHT was my last hope.

When I showed up to IHT, I felt completely dead inside

and had major doubts that this program could help someone as damaged as me; someone who had spent thousands and thousands of dollars on copays and doctor bills desperate for help. I decided to take a leap of faith and was absolutely floored at how I started to feel and continue to feel! IHT uses a combination of different modalities that are tailored to individual needs. My experience included Equine Therapy, Accelerated Resolution Therapy (A.R.T), Neurofeedback, and the Emotional Link with Dr. Colafranceschi.

Ron, Lisa, Johnny and Dr. Cola are the most amazing people I have ever met. They genuinely cared about me and my well-being. I couldn't believe that these three people devoted so much of their time, energy and effort into my healing process. I've never had anyone in this profession care that much about my well-being. They make you feel like family. And I can't forget to mention the horses. The quiet teacher who is powerful, doesn't judge, focuses on actions instead of words, who encourages accountability, is loyal and helps with making connections. Collectively the tools I received at IHT are going to continue to help me throughout my life.

Thank you so much Johnny, Ron, Lisa, Dr. Cola and the pretty ponies I was able to work with. IHT literally saved me! ~ Shelly, wife and mother of 3.

The American Legion

Department of Idaho

Veterans Serving Veterans and our Community

Some of our Newest Programs

The Idaho American Legion is committed to ending Veteran suicide. As partners with several local organizations, our effort goes to equipping and empowering community leaders, Veterans, Active Military, Guard and Reserve members here in Idaho with invaluable Suicide Prevention skills. We are also in the process of training and equipping our Veteran Dispatch teams to respond to Veterans in crisis while we conduct training sessions in Idaho and continue to expand and educate those concerned about our Veterans well-being.

Born during the pandemic, American Legion Post 101's Off Road Riders is the 1st of its kind program in the nation and offers camaraderie, public service, mental well-being and family adventure, all in Idaho's high country. Read all about this new program in the August 2021 issue of The American Legion Magazine, available online.

What we've always been doing

The American Legion has accredited Service Officers to help you file a claim or appeal. Veteran Service Officers (VSOs) are trained and certified in the VA process and can help answer all your VA questions. The VA website has detailed information on death benefits and how to prepare before an emergency arises.

American Legion baseball has been in existence since 1925 but in 2019 and 2021 (no season in 2020), the Idaho Falls Bandits were the first, and only, Idaho team ever to win the American Legion World Series which is held in Shelby, NC.

The American Legion provides flag education materials to schools and we help teach today's youth about how to properly display and care for our national flag. We visit schools and let the kids raise and lower the flag and learn how to properly fold the flag. They take a lot of interest because they get actual hands-on training.

Idaho American Legion.... Something for Everyone

OPTIMAL BRAIN CENTER OF IDAHO

Micro-Current Neurofeedback

The military & first responders who risk their lives every day to protect us now have a way of relief from symptoms caused by Traumatic Brain Injury or Post-Traumatic Stress Disorder. Micro Current Neurofeedback is an effective treatment that is safe and does not require any surgery or medications

What formally took 30-60 sessions with traditional neurofeedback, can now be achieved in 10-20 sessions with enduring sustainability!

MCN stimulates the brain waves with low intensity pulses using transcranial electrical stimulation. When we suffer emotional and physical traumas, the brain “freezes” in a dysfunctional homeostasis that leads to dys-regulation. MCN brief stimulation allows the brain to reorganize itself and release itself from frozen, stuck patterns.
