To the Nation of Portugal

CASHWAYVE NATION MESSAGE

I have conquered territories that span far wider than the terrain of Portugal, reaching 20 times the number of people in your country... I AM YOU.

A Portuguese Nobleman, 100% of noble blood—my grandmother Da Silva-Castro, my grandfather Araujo, and my other grandparents of Lisbon. Do I need to say more for my message to be heard? Please—listen!

I cannot sit back and watch as OUR people remain suppressed—not just by others, but by each other. Portugal holds one of the richest histories in the world, yet past leadership has squandered it. Not for the world—but for you, the people.

My noble fiancée comes from England, where her family crest once adorned the halls of Windsor Palace, and her surname is recorded in Kensington Palace. Yet today, I told her something she could barely believe—her mother, grandmother, great-grandmother, and generations before them never experienced the poverty that my own mother and father have seen.

Two noble families. Yet one had everything, and the other had nothing.

If that happened to nobility, what happened to the rest of Portugal? I weep for your struggles—but let me assure you, that was the past. I am here for YOU.

Portugal once ruled the world. How? Through innovation. The first technology of its time—a map.

Our mistake? Trusting the wrong leaders—not from faith, not from the Church.

What is faith? Believing in something you cannot see, because you trust in GOD.

Faith brings HONOR—honor to stand by your name, your word, your family, your country, and always do what is right when you can.

Do you think the world has grown too fast for Portugal to reclaim its place as a powerhouse?

To the Nation of Portugal,

Portuguese Nobility

Think again.

I am **Dom Manuel III—A Mind that delivers innovation, technology, leadership, accountability, and consequences** for those who wrong their own countrymen.

I will ensure that every action has signatures before execution. There will be no more blaming. No more betrayal.

Because in this world, we only have each other.

If you, the Portuguese people, cannot put aside your differences and unite as ONE—how do you ever plan to reclaim your place in the world?

The time is now.

If you don't believe me because you're still questioning everyone and everything after years of betrayal and hurt, then let me ask you this—who will you trust, if not a nobleman of God, of your own blood?

Still not enough?

Then hear this—I do not speak Portuguese. And why? Because my mother was afraid to teach it to me. She was scared to speak her own language when she came to America because of the abuse she endured for being Portuguese.

That is the very definition of suppression.

And I will not allow you to bury your history any longer.

It is time to continue writing it.

I may not have seen your struggles firsthand, but let me tell you—I have seen acts of betrayal that few have ever witnessed, and that I pray my enemies never do. I have walked through deception, war, and chaos, and yet I stand here, stronger than ever. Not just alive—but **reborn**.

If you trust me and have faith, know that I would never turn my back on you—through tough times and good.
