

Next-generation composite decking

SwitchBoard Ultra

The appearance of timber decking without the maintenance!

Visit our website to find out more:

www.liniar.co.uk/switchboard-ultra

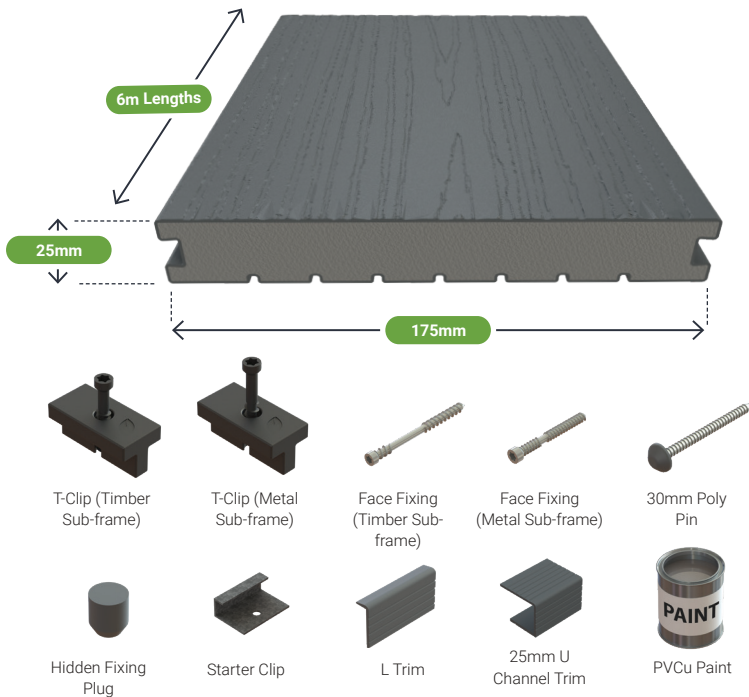

Creating a low-maintenance, bespoke deck has never been easier!

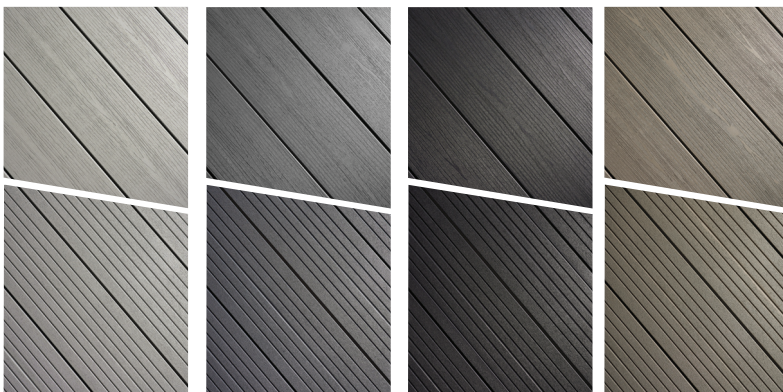

For long-lasting composite decking with minimal annual maintenance, choose SwitchBoard Ultra from Liniar. Manufacturing high quality decking in the UK since 1999, Liniar's next-generation addition to the range features a solid, 100% synthetic core containing recycled material with premium capping technology – designed to out-perform traditional timber deckboards.

Quick and easy to install, SwitchBoard Ultra can be used anywhere you'd normally fit decking – safe in the knowledge it will last for many years to come with no sanding or staining required.

System components

Available in 4 premium colourways

Concrete

Iron

Ash

Shale

- Available in pre-cut lengths for easy ordering and installation.
- Compatible with Liniar's unique aluminium sub-frame for a fully timber-free project.
- Complete your decking area with complementary balustrade and low maintenance fencing.

Premium feel and texture

Featuring a textured, deep embossed surface on both sides, SwitchBoard Ultra deckboards have a 3D touch and a matt surface for a flawless finish.

A durable alternative

Longer lasting than traditional wooden deckboards, SwitchBoard Ultra has a solid core and can be used anywhere you'd usually use timber.

Fully reversible

With a choice of a grooved or woodgrained pattern you can be creative and create a unique, bespoke appearance for your decking area.

Eco-friendly

Manufactured in the UK, SwitchBoard Ultra has a core containing recycled material and is fully recyclable at the end of its life.

Easy to install

Deckboards can either be installed with face-fixings like a timber deck, or using the T-Clip system to ensure no visible fixings.

Rot-free core

Premium capping technology ensures each SwitchBoard Ultra deckboard's core is protected from damp, decay and mould.

Perfect around ponds and pools

SwitchBoard Ultra is ideal for high moisture environments like ponds and pools as no organic fillers are used, so boards won't swell or warp.

Re-usable

With the T-Clip fixing option you'll be able to move or reconfigure your deck in years to come to suit your changing needs.

Family friendly and safe

With excellent slip resistance and traction in both wet and dry conditions, SwitchBoard Ultra is the perfect choice for families and pets alike.

Full 25 year warranty

Deckboards not only have a 25 year warranty*, but with the correct care and maintenance, SwitchBoard Ultra could last up to 50 years.
