Dr. Hulda Clark and her “discoveries”

(To be found on the following webpage: http://www.drhuldaclark.org/ailments_Cancer.asp)

Cancer

The success rate for advanced cancer is about 95%. So you can count on this method, not merely hope it will work for you. It is a total approach that not only shrinks tumors, but also normalizes your blood chemistry, lowers your cancer markers, and returns your health. The small failure rate (5%) is due to clinical emergencies that beset the advanced cancer sufferer. However, if you combine the advice in this book with access to hospital care, even "hopeless" patients can gain the time necessary to become well again.

The promise

Step into a new world. A world without chronic diseases. Step out of your old world. It has kept you a prisoner. Try something new.

The prison has no walls. It has only lines. Lines that mark the ground around you. Inside the lines are your old ideas. Outside are new ideas that invite you to step over and escape your prison. Dare to try these new ideas and your illness promises to recede. In a few weeks it can be gone.

From the book "The Cure for all Diseases." Page 1.

The Cause

The Cause For many years we have all believed that cancer is different from other diseases. We believed that cancer behaves like a fire, in that you can't stop it once it has started. Therefore, you have to cut it out or radiate it to death or chemically destroy every cancerous cell in the body since it can never become normal again. NOTHING COULD BE MORE WRONG! And we have believed that cancers of different types such as leukemia or breast cancer have different causes. Wrong again!

In this book you will see that all cancers are alike. They are all caused by a parasite. A single parasite! It is the human intestinal fluke. And if you kill this parasite, the cancer stops immediately. The tissue becomes normal again. In order to get cancer, you must have this parasite.

How can the human intestinal fluke cause cancer? This parasite typically lives in the intestine where it might do little harm, causing only colitis, Crohn's disease, or irritable bowel syndrome, or perhaps nothing at all. But if it invades a different organ, like the uterus or the kidneys or liver, it does a great deal of harm. If it establishes itself in the liver, it causes cancer! It only establishes itself in the liver in some people. These people have isopropyl alcohol in their bodies.

All cancer patients have both isopropyl alcohol (=rubbing alcohol) and the intestinal fluke in their livers. The solvent, isopropyl alcohol, is responsible for letting the fluke establish itself in the liver. In order to get cancer, you must have both the parasite and isopropyl alcohol in your body.

From the book "The Cure for all Cancers." Page 1.

Cancer can now be CURED:

Cancer can now be CURED, not just treated. We are not accustomed to thinking about a cure for cancer. We think of remission as the only possibility. But this book is not about remission. It is about a cure. This is possible because in 1990 I discovered the true cause of cancer. The cause is a certain parasite, for which I have found evidence in every cancer case regardless of the type of cancer. So lung cancer is not caused by smoking, colon cancer is not caused by a low-roughage diet, breast cancer is not caused by a fatty diet, retinal blastoma is not caused by a rare gene, and pancreatic cancer is not caused by alcohol consumption. Although these are all contributing factors, they are not THE cause. Once the true cause was found the cure became obvious. But would it work? I set a goal of 100 cases to be cured of cancer before publishing my findings. That mark was passed in December, 1992. The discovery of the cause and cure of all cancers has stood the test of time and here it is!

From the book "The Cure for all Cancers." After cover.

The Basis of the Discoveries

I have indicated throughout this book the existence of pollutants in food and other products. These pollutants were identified using a testing device of my invention known as the Syncrometer(TM). Complete instructions for building and using this device are contained in this book. Therefore anyone can repeat the tests described and verify the data.

The Syncrometer (comment: or the Bicom and Biotensor) is more accurate and versatile than the best existing testing methods. A method for determining the degree of precision is also presented. However at this point it **only yields positive or negative results, it does not quantify**. The chance of a false positive or a false negative is about 5%, which can be lessened by test repetition.

It is in the public interest to know when a single bottle of a single product tests positive to a serious pollutant. If one does, the safest course is to avoid all bottles of that product entirely, which is what I repeatedly advise. These recommendations should be interpreted as an intent to warn and protect the public, not to provide a statistically significant analysis. It is my fervent hope that manufacturers use the new electronic techniques in this book to make purer products than they ever have before.

From the book "The Cure for all Diseases." Before contents.

You may not have time to read this entire book first if you have cancer and are scheduled for surgery, chemotherapy or radiation treatment. You may wish to skip the first pages which describe how cancer develops.

Go directly to the cancer curing recipe and order your supplies. Using the herbal recipe together with the zapper is best. It only takes days to be cured of cancer regardless of the type you have. It does not matter how far progressed the cancer is, you can still stop it in 5 days.

After you have stopped the cancer, you can turn your attention to getting well. Read the case histories to see how easy it is to stop even terminal cancer. Learn from them to avoid mistakes.

Does this mean you can cancel your date for surgery, radiation or chemotherapy? YES! After curing your cancer with this recipe it cannot come back. This is not a treatment for cancer: It is a cure! But if you do not wish to make your doctor angry, you could follow her or his wishes, too. Be careful not to lose any vital anatomical parts in surgery though, because you may need them later when you are healthy!

Remember that oncologists are kind, sensitive, compassionate people. They want the best for you. They have no way of knowing about the true cause and cure of cancer since it has not been published for them. I chose to publish it for you first so that it would come to your attention faster.

From the book "The Cure for all Diseases." After cover.

Abstract/Summary

The human species is now heavily infested with parasites, particularly the intestinal fluke *Fasciolopsis buskii*, the sheep

liver fluke *Fasciola hepatica*, the pancreatic fluke of cattle *Eurytrema pancreaticum*, the human liver fluke *Clonorchis sinensis* and the common roundworm, *Ascaris*. The increase in fluke parasitism is due to the establishment of a new "biological reservoir" in cattle, fowl and household pets. The increase in *Ascaris* parasitism is probably due to harboring of household pets.

At the same time, microcontamination of the human food supply with derivatives of the petroleum industry has occurred; these include solvents, antiseptics and numerous products used directly in the food industry. **In the presence of isopropyl alcohol, *Fasciolopsis buskii* (=human intestinal fluke) can complete its entire life cycle in the human body, not requiring a snail as an intermediate host, as it usually does.** Other solvents contributing to parasitism include benzene, methanol, xylene, and toluene which now occur as residues in our foods and pollute our body products such as toothpaste, mouthwash, lotions and cosmetics. These solvents are also contaminants of animal feed, and thus are responsible for establishing the new biological reservoir or source of infection of flukes.

Different solvents accumulate preferentially in different organs. **Isopropyl alcohol accumulates in the liver**, resulting in completion of the life cycle of *Fasciolopsis* in the liver. This **establishes the malignant process**. A variety of growth factors are produced in the human host organs, possibly for the parasites' own use, inadvertently including the human tissue in its sphere of influence. The presence of an adult fluke in the liver signals the production of such growth factors in a distant organ. This organ appears to be chosen on the basis of certain bacteria as well as specific carcinogens present there.

The difference between persons who accumulate isopropyl alcohol and those who metabolize it promptly is the presence of aflatoxin B in the former. Aflatoxins are contaminants of our foods and may also be produced in situ by the growing of mycelia of *Aspergillus* varieties. **Such mycelical growths are only seen in the presence of copper!**

The killing of all parasites and their larval stages together with removal of isopropyl alcohol and carcinogens from the patients' lifestyle results in remarkable recovery, generally noticeable in less than one week. Cancer could be eradicated in a very short time by clearing our food animals and household pets of fluke parasites and by monitoring all food and feed for solvents.

Since developmental stages of the intestinal fluke are found in blood, breast milk, the saliva, semen, and urine and can be seen directly in these body fluids using a low power microscope, it follows that this parasite can be sexually transmitted and also transmitted by kissing on the mouth and breast feeding. However, **the recipient would develop cancer only if isopropyl alcohol were accumulated in his or her body.**

A common bacterium species, ***Clostridium*, manufactures isopropyl alcohol** in the digestive tract and under dental restorations. The use of betaine as a food supplement and removal of dental fillings clear these up.

From the book "The Cure for all Diseases." Page 15.

Any positively offset [DC] frequency kills all bacteria, viruses and parasites simultaneously given sufficient voltage (5 to 10 volts), duration (seven minutes), and frequency (anything from 10 Hz to 500'000 Hz).

Comment: The zapper or **Bio Wave Generator** is the device that can do this kind of treatment. Before this I had always set my commercial frequency generator to alternate between positive and negative voltage. Now I tried setting it to alternate between positive and zero voltage (positive offset). It was just as effective as the battery operated frequency generator my son designed.

Generating positive offset frequencies is the best way to kill all pathogens quickly. But it takes more than one treatment.

But it takes more than one treatment. It takes three treatments to kill everything. Why? **The first zapping kills viruses, bacteria and parasites.** But a few minutes later, bacteria and viruses (different ones) often recur. I conclude they had been infecting the parasites, and killing the parasites released them. **The second zapping kills the released viruses and**

bacteria, but soon a few viruses appear again. They must have been infecting some of the last bacteria. After a third zapping I never find any viruses, bacteria or parasites, even hours later.

The herbal parasite cleanse

Getting rid of all parasites would be absolutely impossible using clinical medicines that can kill only one or two parasites each. Such medicines also tend to make you quite ill. Imagine taking 10 such drugs to kill a dozen of your parasites! Good news, perhaps, for the drug makers but not for you.

Yet three herbs can rid you of over 100 types of parasites! And without so much as a headache! Without nausea! Without any interference with any drug that you are already on! Does this sound too fantastic? Just too good to be true? They are nature's gift to us. The herbs are:

- Black Walnut Hulls (from the black walnut tree)
 - Wormwood (from the Artemisia shrub)
 - Common Cloves (from the clove tree)

These three herbs must be used together. Black walnut hull and wormwood kill adults and developmental stages of at least 100 parasites. Cloves kill the eggs. Only if you use them together will you rid yourself of parasites. If you kill only the adults, the tiny stages and eggs will soon grow into new adults. If you kill only the eggs, the million stages already loose in your body will soon grow into adults and make more eggs. They must be used together as a single treatment.

Comment:

Replace the human intestinal fluke by the human pancreatic fluke (eurytrema pancreaticum) and the isopropanol for methanol (wood alcohol) and those two establishing in the pancreas and you get the partial cause for most diabetes and pancreatitis and incontinence cases.

Remember those type of solvents (methanol and isopropanol) are used for disinfection (which is good) and as such can occur in processed food as a residue in trace amounts (if not flushed out completely before use of the equipment). These residues are not necessarily measurable with just any machine. The disadvantage of these solvents is that they do cause major problems (diseases), if they are entering the body of a human or an animal especially when ingested on a regular basis.

Nature did not intend for us or the animals to eat or drink such solvents...

Propyl Alcohol Polluted Products

THROW THESE OUT

even if propyl alcohol is not listed on the label!

- **shampoo**, even health brands
- **hair spray** and **mousse**
- **cold cereals**, even “natural” granolas
- **cosmetics** (make your own)
- **mouthwash**
- **decaffeinated coffee**, Postum™, herb tea blends (single herb teas are OK)
- **vitamins, minerals and supplements** (unless you test them)
- **bottled water**, distilled water, or spring water
- **rubbing alcohol**
- **white sugar** (brown is OK if detoxified)
- all **shaving supplies** including aftershave
- **carbonated beverages**
- store-bought **fruit juice**, including health food brands

Tear out this page, put it on your refrigerator, and make a copy to stick on your medicine cabinet. Remember propyl alcohol is also called propanol, isopropanol, isopropyl alcohol and rubbing alcohol. You won't drop dead from getting propyl alcohol, but your cancer will flare up with each small addition.
