TWO SISTERS JOURNEY THROUGH GALAXIES TO UNCOVER THE TRUTH BEHIND THE MYTH THAT IS "EARTH" WHILE MAKING FRIENDS AND GROWING UP ALONG THE WAY.

AN ANIMATED SERIES BY CLARA ANN BROWN

# LIZZIE AND NOVA

## OPENING STORY

LIZZIE AND NOVA ARE ALIENS. WELL - TO US AT LEAST! TO THEM, WE DON'T EVEN EXIST. OUR STORY FOLLOWS THE ADVENTURES OF TEN-YEAR-OLD LIZZIE, A TECHNO PRO WITH THE POWER OF CREATURE COMMUNICATION, AND HER BOSSY TWELVE-YEAR-OLD SISTER NOVA, NOT-SO-GIFTED, YET FILLED WITH AMBITION. THE TWO WERE BORN AND RAISED ON PLANET TAURLEA UNDER THE ROOF OF THEIR MOM, ALGAIA, AND STEPDAD, +?>@!%\*^#S~ (BUT YOU CAN CALL HIM TIM, EVERYONE DOES).

Lizzie and Nova can sometimes fight like cats and dogs but they make a totally radical team together. Nova's a complete brainiac and Lizzie's got some mad techno-pro skills (plus her creature communication powers). Whether they're having dance parties with robots on planet Metallor or fighting sea monsters on planet Pysosoria, these girl-leans know how to have some fun.

CHILDREN'S SCI-FI/FANTASY, ADVENTURE, COMING OF AGE

ONE EVENING THE TWO OF THEM COME ACROSS AN OLD RADIO IN THEIR GRANDMA ASTRA'S BASEMENT, AND AFTER SOME TINKERING DONE BY LIZZIE, A MESSAGE IS HEARD:

"S. O. S. REPEAT, S.. O.. S.. THIS IS KY AND MICK RADIOING FROM PLANET EARTH. ARE THERE ANY ALIENS OUT THERE LISTENING? WE NEED YOUR HELP!!!"

## CLARA ANN'S CONNECTION:

My sister is my greatest friend; in our youth however, we struggled quite a bit to get along and be there for one another during hard times. Through Lizzie and Nova, I will give children a guide to healthy communication and respect in a fun, understandable, and intergalactic way!

BUT, EARTH IS JUST A MYTH. EVERYONE KNOWS HUMANS DON'T EXIST...RIGHT? AND HEY- WHAT'S AN ALIEN?

PLAYFUL, COMEDIC, FANTASTICAL, MYSTERY, SIBLING RIVALRY

## THROUGHOUT THIS SERIES...

LIZZIE AND NOVA JUMP FROM PLANET TO PLANET IN PURSUIT OF EARTH, A PLACE TAURLEANS DISMISS AS NOTHING BUT A FAIRYTALE. THAT IS, BESIDES DAN (THE DESTROYER), MAD SCIENTIST AND CURRENT ARMY GENERAL OF TAURLEA. HE NEEDS EARTH TO BE KEPT A SECRET... FOR NOW. HE WON'T LET ANYONE GET IN THE WAY OF HIS PLANS, ESPECIALLY NOT TWO LITTLE GIRL-LEANS.

ALONG THE WAY, LIZZIE AND NOVA MAKE NEW FRIENDS AND FACE STRANGE OBSTACLES. WILL THEY FIND EARTH? CAN THEY OUTFIGHT DAN? OR WILL THEIR DIFFERENCES GET IN THE WAY?

# ONE DAY...

In our Grandma Astra's basement, we got a radio message from two boy-leans asking for help from aliens and claiming to be from Earth!

We also discovered an old pair of space boots. Lizzie tinkered with them and now they're able to travel through the galaxy!

So now we're visiting all of Grandma Astra's friends through the United Intergalactic Solar System to discover the TRUTH about "Earth" and prove that it is not a myth!

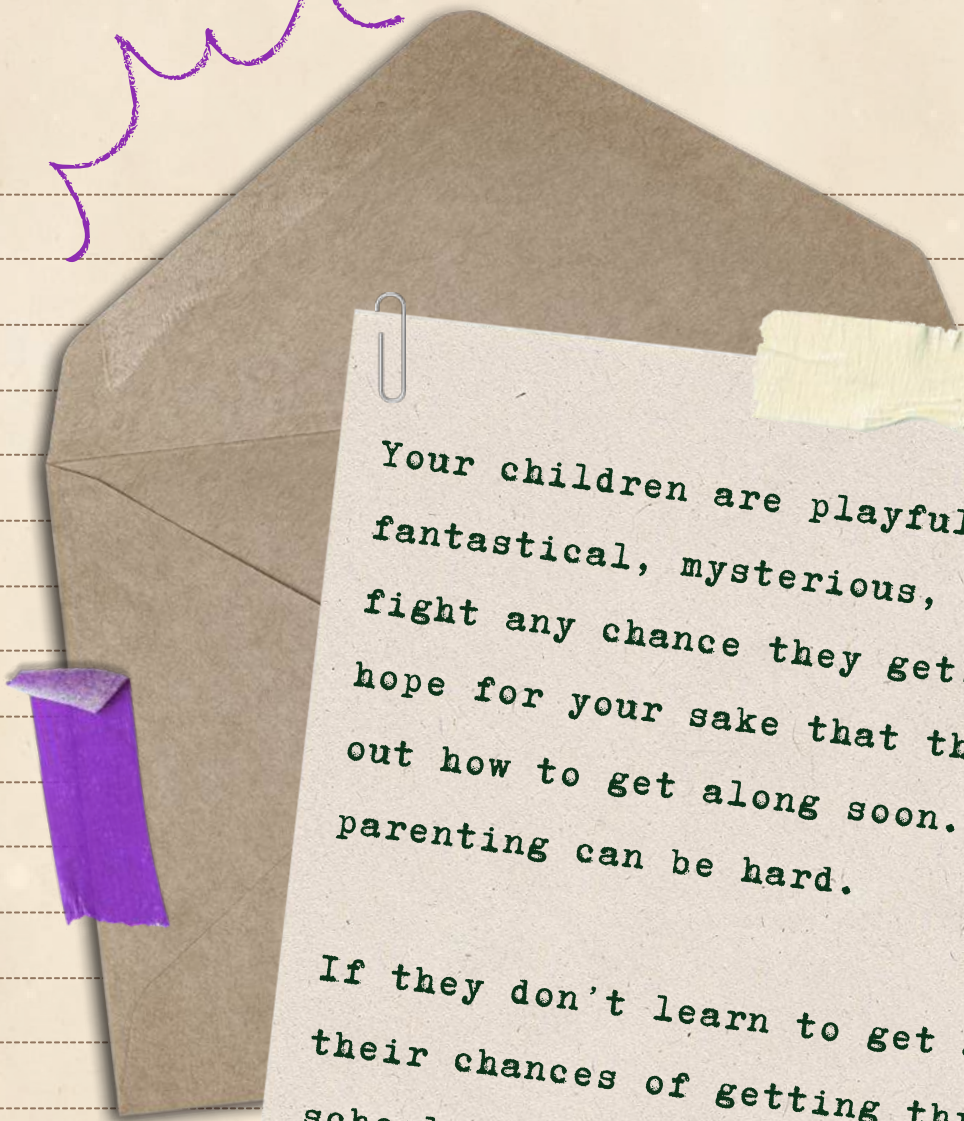

Maybe one of us  
will grow up  
along the way...

Leave me  
alone  
Nova!

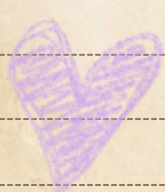

Your children are playful, funny, fantastical, mysterious, and they fight any chance they get. I sure do hope for your sake that they figure out how to get along soon. I know parenting can be hard.

If they don't learn to get along soon, their chances of getting through this school will be heavily compromised.

Coming of age is hard, but they must learn how to get along and appreciate their bond as sisters.

This is part of a letter our principal sent Mom and Tim after I won a food fight against Nova!

YOU started it !!!

# LIZZIE

Hellooooo!!!!

Lizzie here :P

I'm so excited to meet Ky & Mick, my future "Earth" friends. I hope they're not in trouble...

I guess I'm pretty good at building stuff. Wires, cables, & anything techy is easy for me. I like it. I was born with the ability to speak to creatures! (My favorite is an OrphiGata) 

Nova's so cool. I want to be just like her when I'm old. I just wish she was nicer to me...

Mom's always buggin me about the School of the Two Suns, but I would reallyyy rather stay at T.E.S. They teach me science there.

T.E.S. = Taurlea Elementary School

10 year old ~~genius~~

# NOVA

Hi! I am Nova.  
Mom named me  
after some big star  
that exploded when  
she was little. She  
says I have a strong  
name, probably to  
make up for being  
~~powerless...~~

Lizzie gets on my nerves A LOT.  
She thinks she knows  
everything!!!  
She is a pretty sweet sister  
though. ♥

My teachers in school say i have a  
temper... what do they know?! I'm the  
smartest girlean in my whole grade. I  
study and do my chores and keep Lizzie  
out of trouble. None of that matters to  
Mom though. All she cares about is Lizzie  
and her big "potential."

OUR  
GALAXY

home

We're from the  
U.I.S.S. (United  
Intergalactic Solar  
System). It's ruled  
by Ruler Rex.  
Grandma Astra  
says it's only a  
hop-skip-and-a-  
jump away from  
the "Milky Way  
Galaxy"... whatever  
that means.

Taurlea is the capital  
of our solar system  
and home to people  
from ALL OVER the  
galaxy! Its two suns  
are called "Gift  
Givers" because they  
can give us powers.

"US" = Lizzie :/

I can speak to all willing creatures!!!

General Dan  
(aka the  
destroyer)

enough with the  
glitter PLEASE

i'm making this  
page less scary  
for Tim!

Ruler Rex  
of the  
U.I.S.S.

Dan is the Army General here in Taurlea and he has a limp he got in battle... he also lost his powers. One time, Mom told Tim that Dan is "hungry for recognition."

We heard a rumor that he has plans to overthrow the President by stealing the POWER of "Earth's" core so he can get his gift back!

He was a  
shapeshifter!

Rex is the current U.I.S.S. president. They are a big mystery and have stayed hidden in the House of Taurlea since their election. Their Gift is said to bring harmony. Tim says they're pretty mysterious.

the Two SUNS

1 in 11 Taurleans are  
born with a gift. >:(

There's a school dedicated to them:  
The School of the Two Suns. It's a  
private institute for students 11+ that  
were born with powers. It's optional, but  
who wouldn't want to go there?  
ME!!!

Taurlea's architecture is made  
from the carvings of its own  
rock and soil! All natural around  
here. Every planet in the U.I.S.S.  
shares the United Melody.  
That dumb song plays on loop  
on channel one.

Lizzie!!! We shouldn't say that.

But... it's true

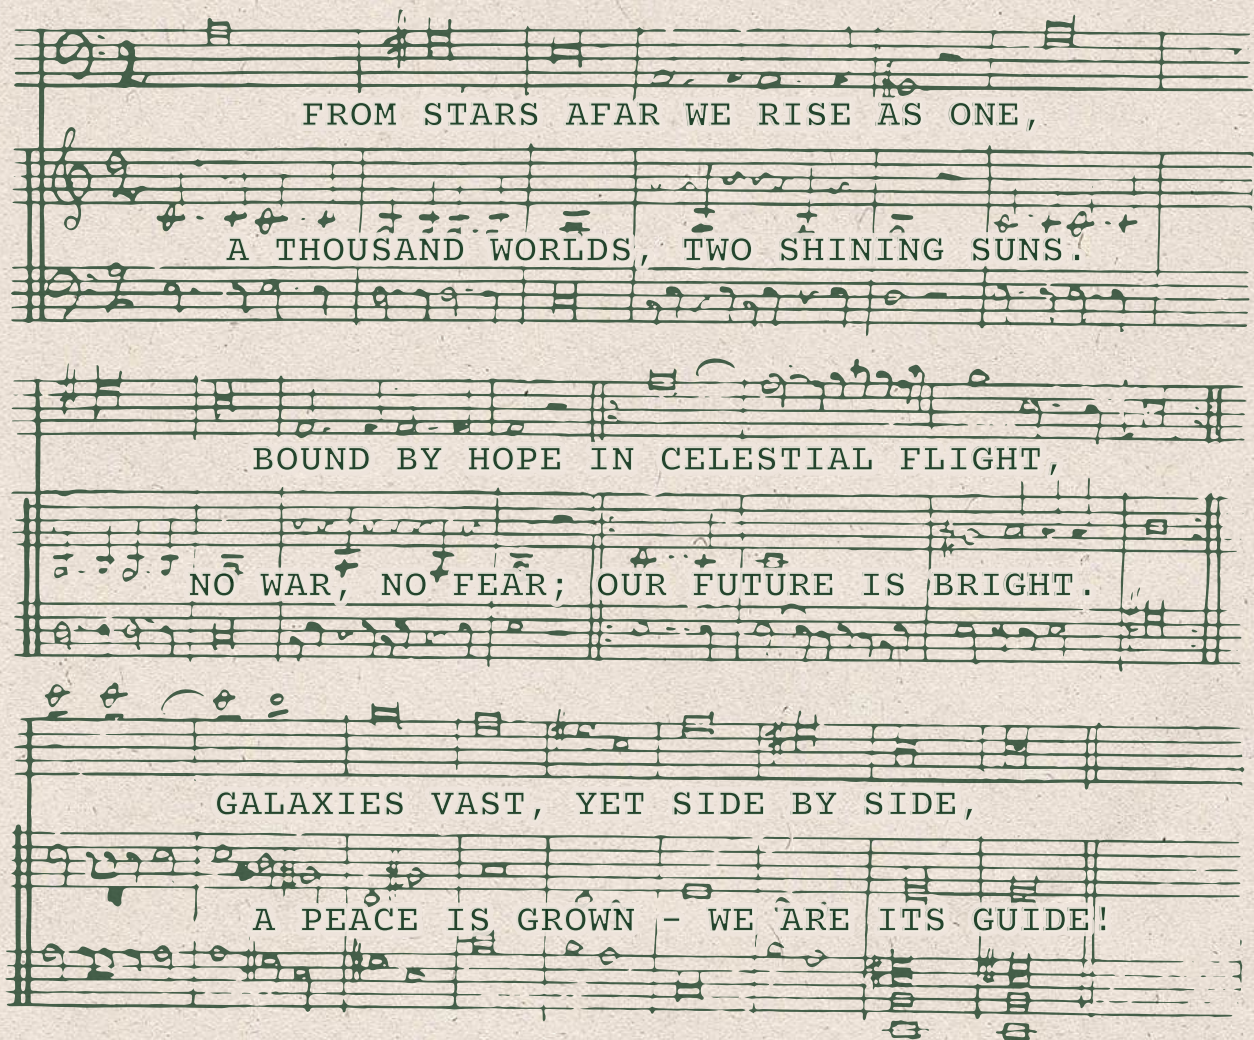

Here's the dumb song.

Show  
some  
respect!

# THE UNITED MELODY

The anthem to be played at all times  
on broadcast channel 1 of the  
United Intergalactic Solar System.

FROM STARS AFAR WE RISE AS ONE,  
A THOUSAND WORLDS, TWO SHINING SUNS.  
BOUND BY HOPE IN CELESTIAL FLIGHT,  
NO WAR, NO FEAR; OUR FUTURE IS BRIGHT.  
GALAXIES VAST, YET SIDE BY SIDE,  
A PEACE IS GROWN - WE ARE ITS GUIDE!

BOOOOOORING

Lizzie. Be nice.

Fine... at least this  
dumb song rhymes...?

ALGAIA

Intergalactic  
Space

Administration  
Engineer

She works a LOT and I work hard to try to be just like her. I know she loves me but she doesn't pay much attention to me...

She's encouraging. She never leaves me alone and talks about my "potential" more than she talks about anything else.

↑ MOM

Mom is the strongest person we know. If she could handle us in our toddler years all by herself, she can do anything!

Dad died almost ten years ago, so Mom had to raise us all by herself for as long as we can remember. She has a lot of responsibilities at work, too, so she expects a lot from us and wants us to have the same high standards for ourselves as she does.

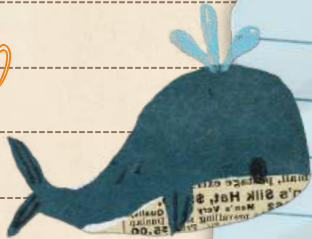

He has gills.  
They are  
the coolest  
things I've  
ever seen.

He is always  
there for us.  
There is no  
one else in the  
galaxy like him.

TIM

@#\*!\$(TIM)

From Pysosoria

Stay-at-home

Step-dad!

Tim has been married to Mom for four years, and we love him ALMOST as much as he loves us! He's the best listener and is always ready to help with homework too. He'll do anything for all of us (we've tested that out!) Once, he made a cake that looked just like his home planet just because we asked!

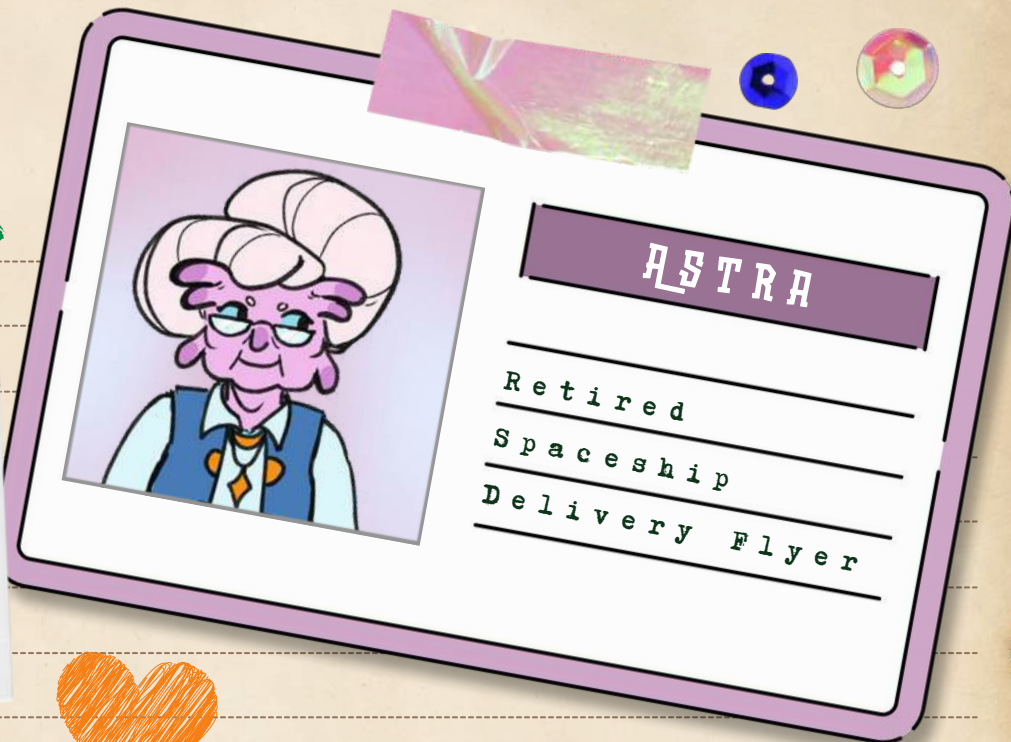

He's not from our planet, but treats it like home because that's where we are.

# GRANDMA ASTRA

Grandma's basement!!

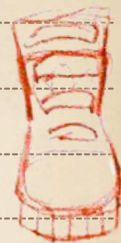

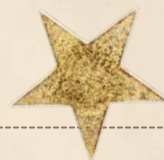

She's kooky and cool and just like me! She taught us about the "Earth" myth and lets us go search for it because some "Humans" spoke to us on her old radio!

Mom says she's gotten old and crazy and I kinda agree... but I won't let Lizzie look for "Earth" all alone.

Grandma SAYS she had a radio pal from "Earth" while she traveled all over the galaxy as a delivery flyer. She even started an "Earth" club with friends who also believe in the myth and has an old board of ideas where "Earth" might be. She has all of mom's old creations in her basement and always lets us play with them!

Space boots are solar-powered by the Two Suns.

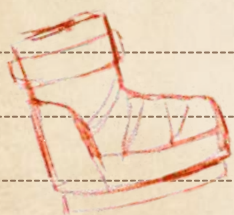

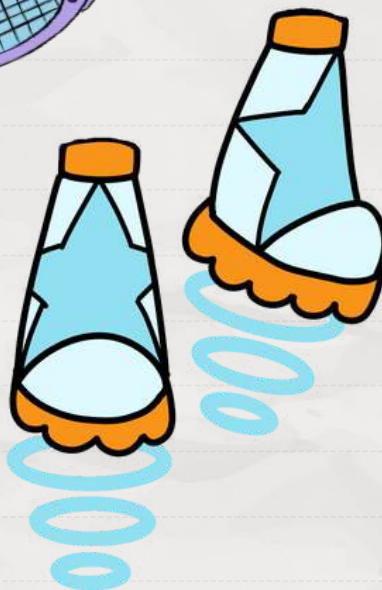

They're government-issued, created for kids to travel short distances, and even comes with a GPS. Mom never let us have a pair though cause Tim drives us to school :(

so I fixed up an old prototype pair we found in Grandma's basement! The GPS wasn't attached to it but they still work okay as a pair.

The boots make people look like they are flying and they fling you across the Intergalactic Highway. It's VERY fast. You can't get lost on it.

THE GPS!!!!

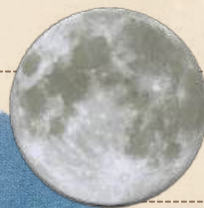

Except the ones we found are a little broken since Lizzie messed with them sooo we do get lost sometimes...

Actually I hacked the GPS so we can go to the off limits areas.

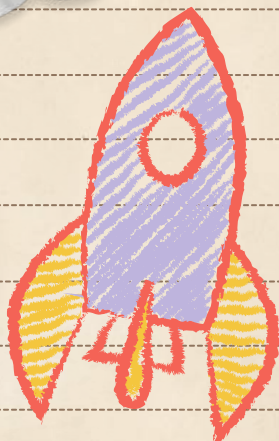

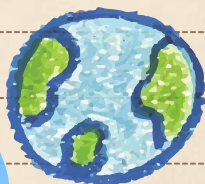

I bet they look like this!!! They don't...

These are our friends  
from "Earth"! ?  
Grandma Astra knew  
their grandpa too.  
Ky is hilarious but  
Mick is ALWAYS in  
trouble with his  
parents...

At least  
they SAY  
they're  
from  
Earth...

Lighten  
up  
NOVA!

you are  
too  
gullible  
Lizzie!

UR just  
a debby  
downer

We visited  
**SEVEN**  
planets!

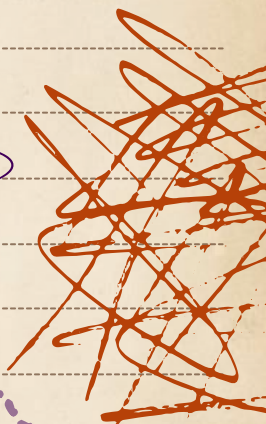

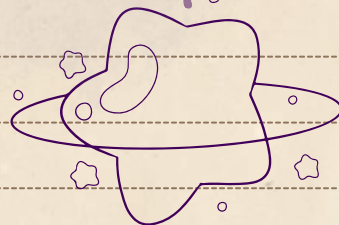

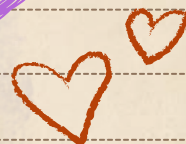

wow we  
did a lot!

After we got home from the last day of school for the summer, we went to visit Grandma! There was this weird radio in her basement that was giving us a strange message from "Earth." But... we've only ever been told it's a legend.

So... of course, we're going off to find out the truth!

We've used our boots, and with Lizzie's recoding, we punch in coordinates to explore the universe! It has been a TON of fun!

But the last planet we went to... it was destroyed. And when we got back home, Dan the Destroyer had taken over Taurlea!

# PILOT

Greetings Subordinate,

Lizzie and Nova are done with school and ready for an out-of-this-world summer, much to my chagrin. The two decided to go over to their Grandma's house and discovered an old radio from her delivery days in the basement. Lizzie tinkered with an old prototype of the space boots, rendering them able to travel to any coordinate in the galaxy without government supervision. They intercepted a message from two humonoid brothers on Earth and are now determined to prove the planet's existence. Lizzie and Nova have prepared to travel the cosmos, coordinate by coordinate, in hopes of discovering the "myth" that dates back centuries. (You and I know the reality of the planet). I write this to remind you to keep an eye on them. They have already briefly seen Phoebon. We mustn't allow them to discover anymore about Earth.

To the core,  
GENERAL DAN

Dan has been watching us... He needs to leave us alone!

## BEAUTA

This is the first planet we have ever visited (on purpose, at least)! All the Beautans here wear ball gowns, makeup, and a lot of jewelry every day... even when they go to the grocery store! It was all a little shocking to see.

After meeting a few Beautans and seeing the way they dressed, I got a little self conscious.

I thought this planet was stupid and wanted to leave but Lizzie was too focused on trying to be like the Beautans.

Nova ended up being able to help me though! She taught me that I shouldn't worry about fitting in anywhere and that I should always just be myself.

## PHAROS

Today we went to the most colorful and bright planet we'd ever seen.

That's saying a lot too... our planet has TWO suns!

We also got to meet one of Grandma Astra's friends from her "Earth" club, Lee!

We were hoping he could tell us about Earth, but he didn't know anything... so we went back to Grandma's all sad.

BUT the most exciting thing happened! We had dinner with this guy mom works with, Dan. Turns out he's an Earth believer too!!! He's going to help us find it!

AND Ky & Mick FROM EARTH called us on the radio we found and told us the sky there is BLUE!!

(I still think this whole thing is a prank)

## ADICIA

Lizzie convinced me to go to a planet that is literally home to all the galaxy's crooks and tricksters! I don't know why I agreed.

Probably cause I said I'd just go without you. Probably.

Anyway, I figured we'd find information about "Earth" on the planet but instead all we found was crime...

(which was expected!)

We met the cutest faun. I had such a wonderful conversation with him that I let him borrow our boots. \*steal.

Even the creatures there are criminals. Nova got really upset with me but then we got invited to fight our case in court for this new TV show and NOVA KILLED IT. She knows the U.I.S.S. laws better than anyone!

Yeah. But it was a scam so we had to expose them to the public. We took them down and got our boots back! AND we found out that the faun was working for Dan the Destroyer!

# METALLOR

Today we visited a planet made entirely out of metal where a species of robots called GLU-GLERS live! They were very boring.

All they ever did was work... We were supposed to only stop to get a replacement part for our radio but Lizzie and I thought we should put aside our "Earth" hunting adventure for the day so we could teach these robots how to have fun.

When we were leaving, the GLU-GLER leader told us that they had a great day with us but they preferred living their normal hard-working lives.

We both learned that just because we like something doesn't mean everyone does, and that's okay!!!

(And they helped us fix our radio!)

# PYCOSORIA

This adventure was difficult to say the least. We crash landed into an ocean planet, fought a sea monster, met a royal family that lives in an underwater air-bubble, and worst of all... our SPACE BOOTS broke down because they got too much water in them AND THEN WE LOST THEM (again)! I got really upset with Lizzie and blamed her for that which turned into a BIG argument.

About a school I don't even want to go to!

When we finally found safety, made up, and were ready to go home we typed in the coordinates and it sent us to a 'hidden' place that was definitely not home.

# PHOEBEON

Our boots malfunctioned yet again and took us to the wrong coordinates! I swear I typed in the right ones!

Our boots were still acting up (not my fault) so we were STRANDED on a planet that had no one there. It was abandoned!

We found a large crack in the ground and decided to explore it. There were ruins underneath the planet's crust... it was all destroyed.

And it looked like it was DAN THE DESTROYER who had done the destroying! He was totally behind it ALL. Inside the ruins we found a map to "EARTH" and Nova finally believed that it was real! That's not the important part of this adventure, Lizzie.

True! We found a way to defeat Dan and we were so excited... until we got home.

Dan has taken over the planet and overthrown the president.

We're the only ones who can save Taurlea.

## On planet Phoebeon we learned...

Many centuries ago, Ruler Rex's ancestor, Alaric, came to Earth during the age of the "dinosaurs." Before going, he took lots of scans of Earth from afar. As he studied them, he became curious about the planet's core - since it looked so different from the ones in his galaxy. Once he got there, seeing the dangerous creatures larger than life terrified him, so he destroyed the pathway from Taurlea to Earth and banned all travel to the planet.

Each planet in the U.I.S.S. has a core and they can all amplify powers to a certain extent, but Dan believes Earth's core is the strongest and the only one that can restore his powers fully.

The reason Dan destroyed Phoebeon was not just in search of Earth, but because he stole the energy from its core. Which only partially worked - his powers are pretty janky and only work half of the times that he wants them to.

Before stealing Phoebeon's core's energy, he lost his powers entirely.

Now...

Destroyer Dan has control of Taurlea and the planet is in chaos!!! But we have a map to Earth, so we're gonna get help from Ky and Mick to rescue Ruler Rex from the planet Adicia where he is held prisoner.

WE'RE GOING TO STOP HIM!

Next...

We FINALLY rescued Ruler Rex, but it's too late! Dan has made it to Earth and is drilling into the surface. We have to fight Destroyer Dan and save the galaxy from his evil takeover! With Earth and Taurlea joining forces, he doesn't stand a chance!
