Radial Pressure Wave
technology made mobile

Intelect Mobile® 2 RPW

Chattanooga's Radial Pressure Wave technology is mobile.

The Intelect Mobile® 2 RPW (Radial Pressure Wave) is compact and light enough to be easily carried while helping to deliver a host of features and benefits.

When there is need for a powerful, yet portable RPW device in the clinic or on the sports field, the Intelect Mobile 2 RPW is an innovative choice. A lightweight and compact design together with a quiet built-in compressor make it suitable for portable use. A user-friendly experience is at the heart of the Mobile 2 RPW's design. The simple, ergonomically laid out controls enable all of the key parameters to be easily changed. A clear, illuminated LED display removes ambiguity when monitoring pressure, frequency and number of pulses. Pulses can be initiated via a trigger button on the handpiece.
