

Veterinarian Waste Management

Trusted for over 25 years, Greenflow Environmental Services, Inc. has provided waste management solutions to veterinarian practices throughout Ontario. We provide our services without contracts, or monthly billing. We are safe, reliable and efficient. We are registered with the Ministry of Environment and Climate Change for transporting and receiving hazardous and non-hazardous wastes in Ontario.

- **Sharps Disposal**
5L containers, 23L pails, 1.5L containers and Wall brackets (5L or 1.5L sizes)
- **Pharmaceutical / Anatomical Waste**
23L pails
 - ❖ All containers above are pre-paid with disposal cost included.
- **X-Ray Waste**
Fixer / Developer (20 L containers) and Lead Aprons
- **X-Ray Film**
Credits are paid for qty's over 100 lbs. To receive credits, please sort the x-rays from paper sleeves and place your film in boxes or we can supply bins for film. We will pick up unsorted film, however there will be no credit issued regardless of weight.
- **Document Shredding**
100 liter sized drum, 200 liter sized drum, Banker Box

Containers are supplied by Greenflow. Call **1-800-287-5416** and a service technician will pick up each full container and leave an empty replacement (if required). To reduce your carbon footprint, have all waste and recycling picked up together. *Please note: a larger transportation fee may apply outside 100 km radius of Burlington.* Pricing is subject to change without notice.

- **E-Waste / Batteries / Toner and Ink Jet Cartridges**
If you have old x-ray machines, computer towers, laptops, televisions, fax machines, monitors, printers, photocopiers etc., add them to a scheduled pick up at no additional charge.
- **Light bulbs (fluorescent/CFL/sodium/incandescent/LED...)**
Unfortunately, most fluorescent light bulbs end up in a landfill or incinerated, releasing mercury when the bulbs are broken. Every part of a fluorescent light; from the glass tube to the mercury inside can be recycled and reused. Help keep this waste out of the landfills by including your light bulbs in your pick up.
- **HWIN Management Program**
We offer an Ontario waste generator management program. Veterinarian practices in Ontario are required by the Ministry of Environment and Climate Change to register their locations and their hazardous and non-hazardous wastes with the Ministry at www.hwin.ca. We can assist you with this mandatory requirement. Contact us to discuss our program options.
