

# Cat Chatter

By Catherine Wilcox

August is my birth month which may explain by bossiness and boldness, but also my giant, generous heart. At least that's what I tell myself. MEOW! This coming Monday is a very busy day, astrologically speaking. Besides it being a Full Moon phase, Venus, Jupiter and Pluto (likes, dislikes, good fortune and transformation) will be creating potential rifts and changes for each and every one of us.

There is no better time to consider building a crystal grid to maximize this amazing planetary influence opportunity and potential to receive Universal messaging and individualized Soul guidance. Crystal grids are wonderful tools to help one take control and utilize outside "energy" forces to attract in or push out wanted or unwanted planetary influence.

I developed a great tool (this self-assuredness is another August/Leo trait) to help one wield energy towards one's own growth and intentions. . . everything one needs to know about building a crystal grid from grid themes, to color usage to crystal selections. There are even full color grid examples. The Crystal Grid Kit comes complete with 10 empty grid shapes on Vellum. Simply add crystals, intention and color. . . viola, a Universe texting tool is created. Meow!

## SPECIAL EDITION

As a result of a near miss assassination attempt on July 13th of a presidential candidate, a lot of spiritual words have been flying thru the media. Divine intervention, a miracle, God's Hands at work, etc. How wonderful that an act so heinous results in thoughts of God. Perfect polarity actually.

God is not just at work in politics however! Every little detail of one's life has God's Hands all over it, from the sublime to the subliminal. My mother-in-law once decreed that God is too busy to be involved in one's daily life. MEOW! God's light is always at work designing circumstances, delivering people and suggesting solutions to every issue one might have. ONE NEED ONLY LISTEN AND TAKE ACTION.

Don't believe me? My book "God is in The Details" chronicles many stories offering proof and thought provoking details of how God worked in the lives of others. The more we acknowledge God's Hands at work in our life with gratitude, the more visible God's Hands become. You will be amazed to see how God works in your life once you read "God is in The Details."
